

## MISSOURI DEPARTMENT OF NATURAL RESOURCES MISSOURI GEOLOGICAL SURVEY LAND RECLAMATION PROGRAM

## ANNUAL OPERATIONS STATUS REPORT - IN-STREAM SAND AND GRAVEL OPERATIONS

Operations removing sand and/or gravel from within a stream are asked to report where sand and/or gravel removal occurred during the past permit year.

Example – If your permit year runs from May 25 last year to May 24 this year, you would report all areas mined during that 12 month period.

These reports are due within 60 days of the date the current permit expires or of the date the last permit was renewed (whichever date is first after Jan. 1).

The following table may be used to report the locations. In addition, the locations must be shown on a map. The map may be a copy of the same map provided with the permit application.

PLEASE COMPLETE THE FOLLOWING
