SYSTEM SPECIFICS

Missouri Public Drinking Water Regulation 10CSR60-7.010(2) requires that public water systems notify the department within 48 hours of a failure to comply with any regulation or monitoring requirement. Since the regulation 10CSR60-4.080(8) requires all public water systems to maintain a minimum pressure of 20 psi, all public water systems must notify the department when pressures in their system fall below 20 psi. **Use this form to report low pressure events directly to the Department Regional Office in your area.**
