

ANTIDegradation REVIEW SUMMARY
PATH E: TEMPORARY DEGRADATION

1. FACILITY	
NAME	COUNTY
2. POLLUTANTS OF CONCERN	
Pollutants of Concern to be considered include those pollutants reasonably expected to be present in the discharge per the Antidegradation Implementation Procedure, Section II.A.	
3. DEGRADATION OF WATER QUALITY	
Is the degradation of water quality temporary? <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, the department will determine if temporary degradation is appropriate, based upon the information provided below. "Activities resulting only in the temporary degradation will be given a Tier 1 review," per the Antidegradation Implementation Procedure Section II.A.4.	
3.1 Length of time during which water quality will be lowered?	
3.2 Percent change in ambient conditions?	
3.3 Parameters affected?	
3.4 Likelihood for long-term water quality benefits to the segment?	
3.5 Degree to which achieving the applicable water quality standards during the proposed activity may be at risk?	
3.6 Potential for any residual long-term influences on existing uses?	
4. PROPOSED PROJECT SUMMARY
