SECTION 319(h) SUBGRANT APPLICATION

WETLANDS RESTORATION, PROTECTION OR CONSERVATION EASEMENT DELIVERABLES WORKSHEET

Project Sponsor:	
Project Title:	

DIRECTIONS:

When requesting Section 319(h) grant funds to conduct wetlands restoration and/or protection, you **MUST** complete the Wetlands Restoration and/or Protection Deliverables Worksheet in addition to the detailed project workplan narrative. Wetlands projects using Section 319(h) grant funds are most appropriate when restoring naturally occurring wetland areas that have been impacted by previous activities such as farming or subsurface drainage. Other wetlands projects may include the construction of passive stormwater treatment wetland areas. **Section 319(h) grant funds may NOT be used to construct highly engineered wetland areas on sites where wetlands did not previously exist.** Wetland areas restored using Section 319(h) grant funds should, where possible, be protected with conservation easements or within local or county park areas. Include all project specific deliverables that will be produced as part of your project and the number of each item using the "deliverable units" listed below. If an item that will be produced is not included on the list, use the "Other" category and specify the deliverable.
