

Application / Update

Vehicle Repair Stations Employing Recognized Repair Technicians

Motorists whose vehicles fail a GVIP emissions inspection receive a list of the ten (10) nearest shops to that inspection facility that employ Missouri Recognized Repair Technicians (MRRTs). Submittal and approval of this document by SysTech International assures your shop will be included on that list.

Please **PRINT** legibly or type.

First Application
 Update Facility or MRRT information
 Add or remove **MRRT** staff

Business Name _____

Address: Street _____

City / State / ZIP _____

Phone number (please use main phone for business) _____

Contact Person _____ Position: _____

This business is a GVIP inspection station. If checked write station number: _____

A Missouri Recognized Repair Technician must have and maintain current ASE certifications for: **A6** Electrical/Electronic Systems, **A8** Engine Performance, **L1** Automobile Advanced Engine Performance.

- For new applications / technicians include their name, ASE ID number and copies of ASE Certifications;
- To remove a technician, please list their name and check 'Remove'
- To update a technician's certification, include their name, copies of renewed certifications and check 'Update'

List qualified repair technicians

Name(s):	ASE Identification Number(s):	Update	Remove
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____

(Attach additional sheet if you employ additional qualified repair technicians.)
