REMARKS: _____

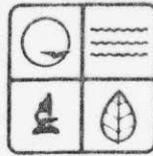

INSTRUCTIONS

On the above plat, show distance of the proposed well from the two nearest lease and section lines, and from the nearest well on the same lease completed in or drilling to the same reservoir. If the location requested is not in conformance with the applicable well-spacing rules, show all off-setting wells to the proposed well. Do not confuse survey lines with lease lines. See rule 7 - 3 (b) for survey requirements.

MEMORANDUM

DATE: August 3, 1978

TO: Dan Summers

FROM: Jack Wells *JW*

SUBJECT: Bob Davis dba Missouri Mineral Resources, Inc.
Meline No. 1 and Garlock No. 1 wells

On Tuesday, 1 August 1978 I inspected the drilling sites of the above two captioned wells located in Knox and Adair Counties, Missouri, to attempt to determine if these wells have been properly plugged and abandoned according to provisions in the Rules and Regulations of the Missouri Oil and Gas Council.

Neither well has been plugged--and further--have not been temporarily abandoned in a safe or accepted manner.

The No. 1 Meline well located in Section 36, Township 63 North, Range 13 West, Knox County, has 10½-inch I.D. casing extending approximately three feet from ground surface with a 5-gallon oil bucket placed over the casing. After lifting off the oil bucket and looking down the hole, water or fluid could be seen at an undetermined depth. A wooden platform some 15± feet square, now rotting, was around the casing. Other miscellaneous drilling junk was also scattered in the vicinity of the well site.

The No. 1 Garlock well located in Section 32, Township 63 North, Range 13 West, Adair County, was shown to me by the landowner, Mr. Viri Garlock.

The well has 6 1/8-inch casing extending a couple of feet above ground level and was covered by a metal oil bucket. Fluid was present in the hole at an undetermined level. The landowner would just as soon this well be plugged. There is another old well (probably drilled before rules and regulations) some distance to the east of the Davis well that is also not plugged; however, the landowner would like to keep this for further use. I doubt that we would have any jurisdiction over this well anyway.

Mr Bob Davis

office visit. 13 FEB 74

Re: No 1 well Garlock.

Est Depth @ 362

approx - 225' of 6" esg, eem circ
to surface.

Will decide within
a week if No 1 Garlock will
be abandoned or deepened —

Note!  API # changed from

~~20001~~ 20001 to 20009 as of

6 Sept 75 wells —

Eldorado Springs, Mo. 64744

Also send VOL 40. w/ statement.

re: tele call 1 Aug 73.

taken by J. Wells -

Remarks - TELE CALL from above
re: requirements etc to drill for oil.

DAVIS et al. (Mo. Min. Res. Inc) plan
to drill an offset well to the Cecil
A Serrell well in sec 32 63 N 13 W
Adair Co Mo. Thinks there were
shows of oil in SALEM-WARSAW section.

Had copy of our log on Serrell wells.
also copies of MGS #s. 6152, 20293 CSO
CSO. 20611, 21816 & 21391.
