Mr. McGown:

November 5, 1981 we approved permit #20228 to drill the Richard Brown #1 well, January 25, 1982 permits #20262 and #20263 were approved for the Workman #2 and #3 wells, and March 1, 1982 permits #20494 and #20495 were approved to drill the Spear #1 and #2 wells.

We have not received any information concerning the Spear #1 and #2 wells and extensions were granted for the Richard Brown #1 well (extended to February 16, 1983) and Workman #2 and #3 wells (extended to February 25, 1983). We would appreciate up-to-date information on these wells as soon as possible.

According to a letter received January 4, 1983 you told us that the Fahey #1 well (permit #20376) had not been completed or abandoned but that it had a 2-inch production pipe in it and you were getting ready to plug it. Will you please update us on this well.

Thank you for your consistent cooperation and we will appreciate hearing from you concerning the above wells as soon as possible.

Sincerely,

Bruce W. Netzler, Geologist
