INSTRUCTIONS

On the above plat, show distance of the proposed well from the two nearest section lines, the nearest lease line, and from the nearest well on the same lease completed in or drilling to the same reservoir. Do not confuse survey lines with lease lines. See rule 10 CSR 50-2.030 for survey requirements. Lease lines must be marked.

This is to certify that I have executed a survey to accurately locate oil and gas wells in accordance with 10 CSR 50-2.030 and that the results are correctly shown on the above plat.

Rows with **red** text indicate that the input location is too close to a boundary to produce reliable results.

NOTE: A result of 'NO VALUE' is usually an indication that no data was found for the location. For example, not every point in Missouri will lie within a municipal boundary, so some will result in a 'NO VALUE'. If 'County Name' results in 'NO VALUE', your point probably lies outside the state.

RE: Request for Permit Extension
Accruso 9-17B-2 (Permit #037-21333 _Cass County)

Dear Mr. Gillman,

Running Foxes Petroleum, Inc. would like to request a 6 month extension on the above listed permit. This location expires on or about 12 March 2014. We have not been able to drill this well in the allotted time of the permit. We are adjusting our drilling plan for the remainder of 2014 to include this well. This extension would allow us the time needed to drill this location.

Thank you.

Respectfully,

Joe Taglieri
Geologist
