RE: Transfer of Well Operations; Clinton County

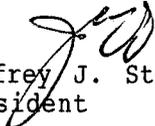

Dear Scott,

Following our conversation of yesterday, and my letter of the 3rd of November, regarding some additional information you needed before we can effectuate the transfer of wells to our company, I've enclosed the following for your review:

- 1) A Notice to Cancel Permit Application on the Double C Farms lease, DNR# 049-20028, signed by Jeff Leenerts.
- 2) A letter from LaQuinta Exploration & Production Company, Inc. ("LaQuinta") agreeing to the transfer of the listed wells from LaQuinta to Warrior Operating Company.
- 3) Your records had George Mosel listed as the operator of the Mosel #1 thru #7 wells. I've attached copy of a letter dated 3 December 2004 from Matthew Parker of your office releasing the bonds on these wells to Mr. Mosel and two e-mails regarding the transfer of operations on these Mosel wells to LaQuinta. I would trust these documents will suffice as evidence Mr. Mosel no longer is the operator and these wells likewise need to be transferred to Warrior Operating Company.

Scott, if you have further questions on any of this, please call. If all is approved, please advise the transfer of operations has been approved and the bond LaQuinta had posted can be released. When well/lease operations have been officially transferred, I'll send in the OGC-9 on 2010 gas production we have records of.

Respectfully,
WARRIOR OPERATING COMPANY, INC.

Re: Transfer of Well Operations

Gentlemen,

This letter is to inform you that LaQuinta Exploration & Production Company, Inc. acknowledges, agrees and confirms that operations on the wells listed on the attached sheet can be transferred to Warrior Operating Company, Inc.

Further, the plugging bond posted with the DNR-Missouri Oil & Gas Council by LaQuinta Exploration & Production Company, Inc. can be released. If you have questions on any of this, please call me.

Regards,
LaQuinta Exploration & Production Company, Inc.

Dear Mr. Mosel

Enclosed are the following certificates of deposit: 9713, 9714, 9715, 9716, 9717, 9718, 9719, Each certificate of deposit is for the individual amount of six hundred and fifty dollars (\$650.00), each certificate of deposit is from the Mercantile Bank of Plattsburg. These certificates of deposit were used as plugging bonds for 7 wells as required under the *RULES AND REGULATIONS OF THE MISSOURI OIL AND GAS COUNCIL*. These plugging bonds are being released as a separate company has posted a bond for the wells formerly under the above-mentioned bonds. This company has taken responsibility for these wells. The Missouri Department of Natural Resources, Geological Survey and Resource Assessment Division, Geological Survey Program, UIC/Oil and Gas Unit formally releases Bonds # 9713, 9714, 9715, 9716, 9717, 9718, and 9719. Should you have any questions, please feel free to contact me via any of the methods listed below.

Sincerely,

I believe Dave or I can supply you with the other permit information. I will be making the necessary changes to ownership. In releasing the bonds back to Mr. Mosel I will need to know if his mailing address is still RR 1, Box 79, Turney, MO and if he wants the cds sent to that address. If you could ask him to contact me or if you could relay the information to me I would appreciate it.

Thanks,

Subject Mosel Wells (Clinton County)

10/19/2004 07:32 AM

Hi Matt,

We are going to assume operations on the seven wells on the George Mosel property (T56N-R30W Sections 28 & 33) with our operating company LaQuinta Exploration and Production Company. We have permit numbers for five of the wells (Permit #'s 20006, 20007, 20008, 20011 and 20012. As I stated in an earlier email, we do not have any permit information for two of his wells, so I can't give you the numbers. We will be sending to you the transfer of operations form for these wells that we have typed up and George has signed.

Since we will be assuming operations of these wells, George would like for his CD's being held by US Bank to be release once our transfer is complete. George has seven CD's being held by US Bank, which I will send you copies of if you need them.

Thank You,
Jeff Leenerts

Rolla, Missouri

Re: Reply to your e-mail of 8 April 2013

Dear Joey,

Did what research on your questions and made some phone calls to see what I could come up with. My replies to your questions follows:

- 1) Regarding API #s 049-20009 through 049-20012, on the completion report the lease name is MM Lazy Eight while the well numbers are listed as Mosel #4-7. The Well Status Report we received from you on 05-15-2012 states these wells were located on the Mosel lease. Which lease are these wells located on?

I can understand some of your confusion. There was some confusion on our part when we assumed operations of the wells. The base oil and gas lease was from a company, MM Lazy Eight, LLC. The farm the wells are on was owned by George Mosel, who also was a member off the limited liability company, MM Lazy Eight, LLC. Over a period of time, the two names "Mosel" and "MM Lazy Eight", were used interchangeably by former operators, owners and folks associated with the wells. All the Mosel wells (and the two MM Lazy Eight wells) are on the 800 acre Mosel farm.

- 2) Regarding API #s 049-20006 through 049-20010 and 049-20012, do you have a record of the completion dates and packer set depths for these wells? AND,
- 3) Regarding API #s 049-20006 through 049-20008, do you have the total depth of these wells on file?

The above two questions can be combined into one reply. First, we do not have the Completion Reports on these wells. The former operator didn't have them and information from any type of official reports is slim. I did however talk to a person who was familiar with the wells, leases and operations on the "Mosel/MM Lazy Eight" wells back in the early 2000's. The following was what I learned from him.

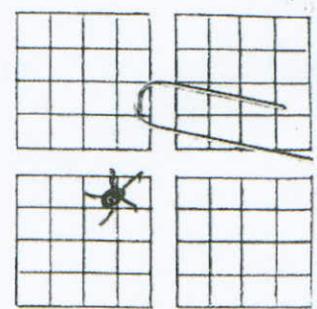

In 2004 the former operator (Roger Leenerts, now deceased) met in Rolla with David Smith, now retired from the DNR, in an attempt to locate what records might be available. They apparently spent the better part of a day going through the old files in the basement archives of the DNR, and didn't find much. The wells on the "Mosel/MM Lazy Eight" were drilled between 1952 and 1956. The TD of the wells are around 400' with 2.375" tubing and completed in the Squirrel Sand at about 320'. Three old logs were located in that DNR-GSP records search between Roger Leenerts and Dave Smith and I've attached those for your reference. Another log was found that we believe is the Mosel #1, again found for the former operator by Dave Smith. All the wells on this lease were drilled the same and we made the assumption that the information we had for a few of them would be the same for all.

The above information is what I've been able to find out regarding the original drilling of the wells. On wells drilled this long ago, it's not surprising to me that over the years the various operators lost files and records and what we have now is pretty much what I've told you above and included here. Hope the above provides you with more information than you had before.

Best Regards,
Jeff Steinke
