The section township and range (STR) were the only locational information available for this well, and the county listed in the database (Buchanan) for this STR did not agree with the county plotted in PLSS (Clinton). The county plat maps did not show a section 24 in the township and range in Buchanan but did exist in Clinton County which adjoins Buchanan. The information from the record was copied and a new record created and assigned a subsequent number to the latest number in Clinton County (049-20054). The old record (021-00053) was then removed from the database. The location of this well was updated using GPS coordinates in database and then verified with DNR check location utility.

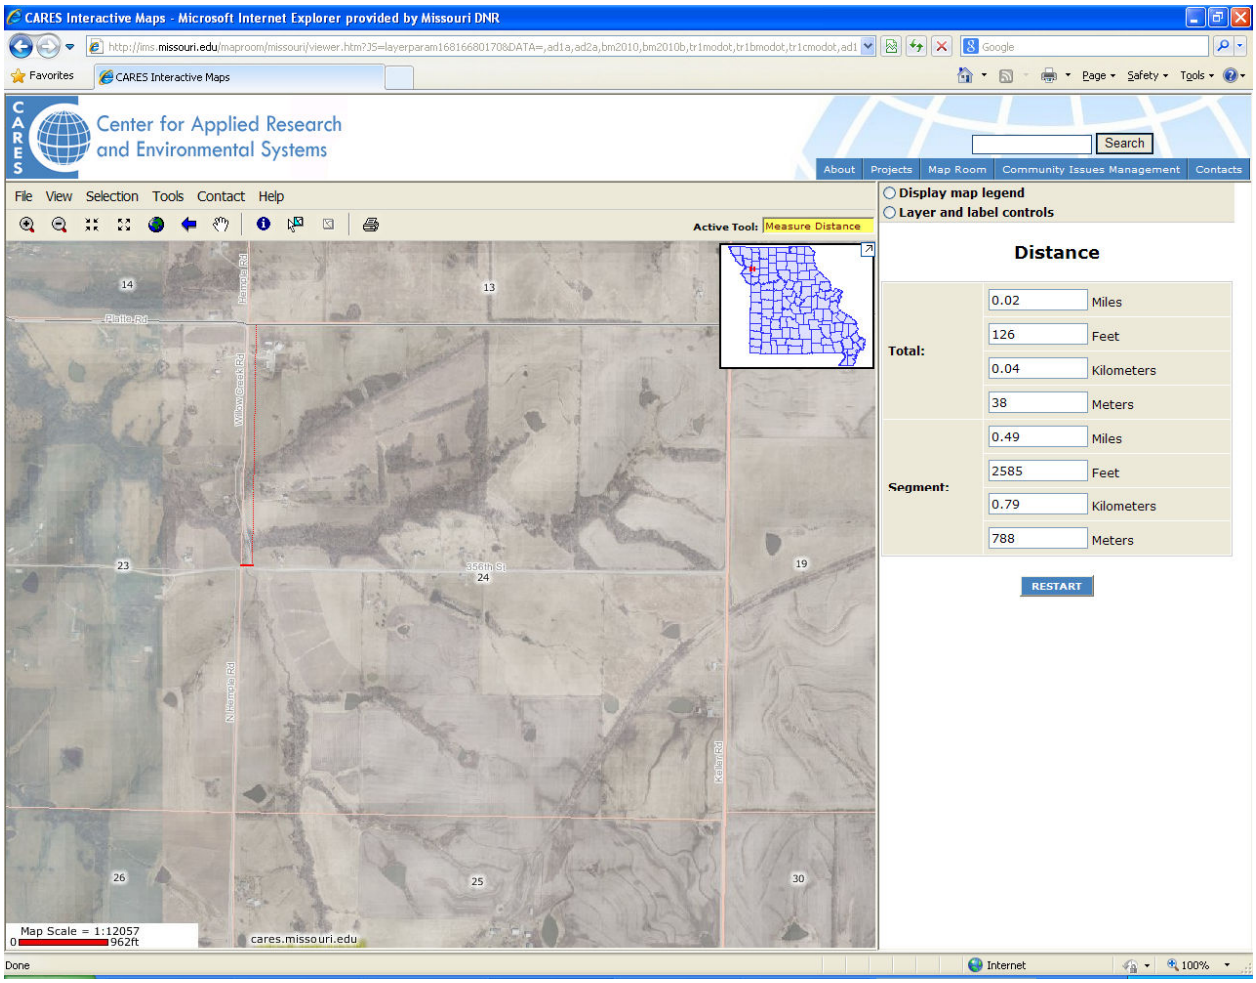
No Section 24 in Buchanan County, it is believed that the location is actually in Clinton County, MO.



Plotted in CARES according to STR and direction from north and west line for correct county of Clinton, and created Clinton County record 049-20054 and removed record 021-00053 from database after updating the information given on that record.
