INSTRUCTIONS

On the above plat, show distance of the proposed well from the two nearest section lines, the nearest lease line, and from the nearest well on the same lease completed in or drilling to the same reservoir. Do not confuse survey lines with lease lines. See rule 10 CSR 50-2.030 for survey requirements. Lease lines must be marked.

This is to Certify that I have executed a survey to accurately locate oil and gas wells in accordance with 10 CSR 50-2.030 and that the results are correctly shown on the above plat.

## Missouri Gas Partners

---

September 8, 2004

Matt Parker  
Department of Natural Resources  
Oil and Gas Unit  
P.O. Box 250  
Rolla, Missouri 65402

Subject: Relocation of Turner #1 Well Site

Matt:

Attached is the original survey of the Turner #1 well site with additions to show the relocation of the well site to set back from the property line the minimum required 234 feet. The new site is now 242 feet from the property line.

The new site was relocated using two methods:

First: a bearing was shot and measured from the original surveyed point (N 22° E, 161 feet and S 60° E (N 60° W), 35.3 feet);

Second: a GPS reading with a Garmin III was taken using Datum NAD27, CONUS. The coordinates for the relocated well site are:

Latitude: N 40° 10' 38.8"  
Longitude: W 093° 51' 46.7"

This should resolve our error in placing the well site to close to the property line. If this is sufficient, you can fax the approved applications to my attention at fax number (660) 663-2498 in Gallatin, Missouri. If there are any additional questions please call me via my cell number and again, thank you for helping us resolve the problem.

Sincerely,

Gary R. Heinemeyer  
General Partner
