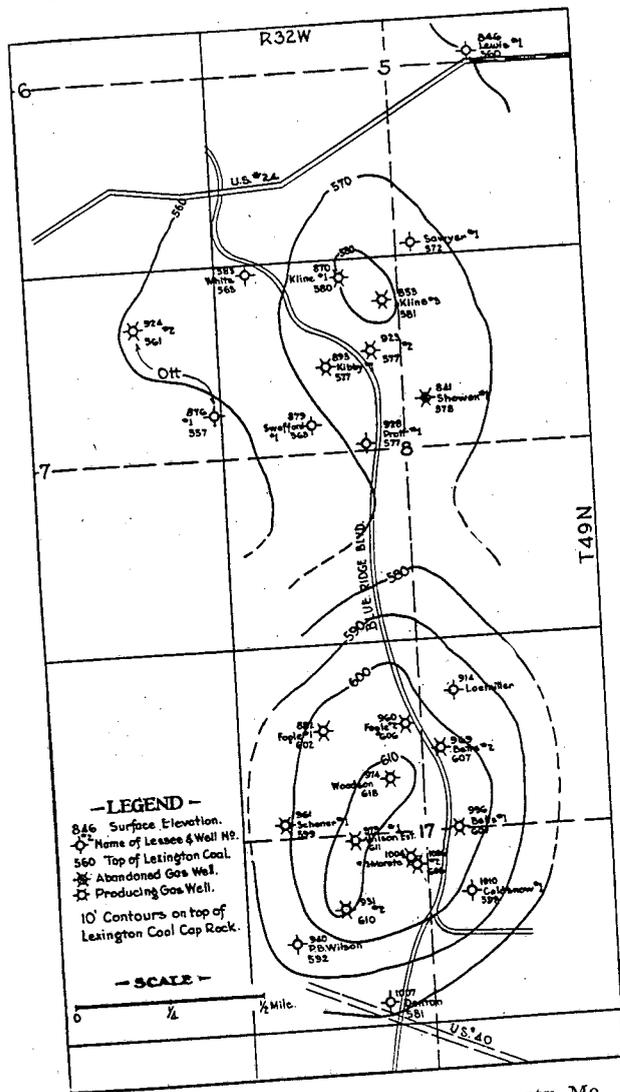

FIGURE 2. Blue Ridge gas pools, Jackson county, Mo.

The Marota pool, while a new development as a commercial pool, has produced shallow gas for private use for many years. Mr. Fred E. Davis deepened an old well on the Marota place in section 17, T. 49 N., R. 32 W., from the Peru to the Squirrel sand in April, 1934, completing it for 450,000 cubic feet at a depth of 478 feet. Subsequent drilling showed the Marota pool to be a separate dome, closely related to the older Kline pool in section 8, T. 49 N., R. 32 W., to the north (Fig. 2). Thirteen holes have been drilled to the Squirrel sand, of which nine were producers and four (including one previously drilled a short dis-
