Missouri Department of Natural Resources  
PO Box 176  
Jefferson City, MO 65102

Dear Sirs:

In reference to 10 CSR 40-10.050 Performance Requirements and the changes advocated therein. This letter expresses our support of all of the proposed changes to include flexibility in incorporating allowed variances.

It is clear that the authors of these performance requirements have utilized common sense and consideration of conservation of natural wet and dry streams. We urge you to incorporate all recommended changes immediately.

Sincerely,

RANDALL DENNIS  
President

RECLAMATION COMMISSION

March 20, 2002

Land Reclamation Commission

Dear Commissioners: I am writing in support of SB360 sponsored by Senator Sara Steelman. This bill will give landowners more opportunities to get gravel removed from their streams in a cost efficient manner and also help stop stream bank erosion while improving fish habitat.

I am in favor of leaving the gravel removal guidelines as guidelines instead of making them regulations.

Sincerely,

A handwritten signature in cursive script that reads "Charles Rademacher".

PO Box 176  
Jefferson City MO 65102

To Whom It May Concern:

The Moniteau County Farm Bureau Board of Directors wants to express our support of Senator Steelman's SCS/SB360.

We support this bill because we favor fewer restrictions making it easier to remove sand, gravel and vegetation from streams from stopping up and causing flooding of valuable farm land. The sand and gravel is valuable to farmers to help maintain private roads and feed lots. This gravel is also valuable to provide lower costs maintenance for county roads.

Sincerely,

Jerry Wolfrum  
President, Moniteau County Farm Bureau Board
