

EIQ Form 1.2 Summary of Emission Units and Related Processes Instructions for Form 780-1620

Air Pollution Control Program fact sheet

12/2009

This form is required from all facilities. The information given should be consistent with the construction permit. All emission units shown on *Form 1.1 Process Flow Diagram*, or included on a Form 2.0, must be listed on this page.

Complete the Facility Name, Federal Information Processing Standard, or FIPS, County Number, Plant Number and Year of Data fields at the top.

Unit Number - The identification number must be the same as the identification number assigned to this unit on all other EIQ forms.

Source Classification Number, or SCC - List the SCC associated with each unit.

Emission Unit Description - Provide a brief description that uniquely describes this emission unit. This should be the same as the unit description entered on Form 2.0.

Operating Status - Check whether the unit is Active, Inactive, Dismantled, Under Construction, or Insignificant as described at the top of the form.
