RE: Withdrawal of the October 16, 2015, Permit Amendment, Revised Operating Parameters, Gas Extraction System, Bridgeton Landfill, LLC, Permit Number 0118912, St. Louis County

Dear Ms. Fanning:

On October 16, 2015, the Missouri Department of Natural Resources' Solid Waste Management Program (SWMP) amended Permit Number 0118912 issued to Bridgeton Landfill, LLC (Bridgeton) regarding the facility's gas collection and control system. The condition required Bridgeton to maintain oxygen levels in the North Quarry gas extraction wells at no greater than 1.5 percent by volume to limit oxygen intrusion. Since then, Bridgeton has received approval for and implemented corrective measures and an Operation, Maintenance and Monitoring Plan rendering this condition unnecessary.

Further, Final Consent Judgment (CJ), Case No. 13SL-CC01088-01, Section I, Paragraph 7. requires the following:

"The Parties stipulate that this Final Consent Judgment resolves the appeal that Bridgeton Landfill, LLC, filed with the Missouri Administrative Hearing Commission, Case No. 15-1694. The Parties further stipulate that within thirty days after entry of this Final Consent Judgment, the Department shall, in writing, withdraw its disputed modification of the Solid Waste Disposal Area Permit #0118912 that required Bridgeton Landfill, LLC, to maintain oxygen levels in the North Quarry at or below 1.5% by volume. Defendant Bridgeton Landfill, LLC shall thereafter voluntarily dismiss the complaint in Case No. 15-1694."

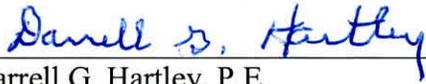

In accordance with the Final CJ, the SWMP withdraws the permit amendment issued by the SWMP on October 16, 2015.

Ms. Erin Fanning
