WELCOME and INTRODUCTIONS

GENERAL AIR PROGRAM UPDATES

DISCUSSION

We plan to present conceptual information regarding upcoming rule amendments to our two main air permitting rules:

- Construction Permits Required (10 CSR 10-6.060)
- Operating Permits (10 CSR 10-6.065)

We received many constructive comments through Missouri's Red Tape Reduction Process and during various meetings. We look forward to working with you to amend the rules in ways that make sense and protect air quality.
