**Air Program Advisory Forum
Elm Street Conference Center
Bennett Springs/Roaring River Conference Room
1730 E. Elm Street
Jefferson City, MO
Thursday Jan. 31, 2019
1 p.m.**

Call-in number: 866-288-5731

Agenda

Welcome and Introductions

Red Tape Reduction Updates

The Missouri Air Conservation Commission adopted 62 rulemakings in 2018 (20 rescissions and 42 amendments). These rules have effective dates from Sept. 30, 2018, through March 30, 2019.

We plan to discuss what's changed and what's stayed the same, in particular, for 10 CSR 10-6.060 Construction Permits & 10 CSR 10-6.065 Operating Permits

- What's affected,
- How to handle transition,
- What permit limits are still in affect

We received many constructive comments through the Red Tape Reduction Process (and in various other meetings) and look forward to working with you as we transition through the rule changes in a way that both makes sense and protects air quality.

Discussion:

- Other Rules you'd like to focus on in future Forum meetings?
- Possible workgroup ideas (e.g. HAPs policy, Emissions Banking and Trading Rule, Process Weight Rule)
