

E. SCOTT PRUITT
ADMINISTRATOR

April 30, 2018

The Honorable Eric Greitens
Governor of Missouri
Post Office Box 720
Jefferson City, Missouri 65102

Dear Governor Greitens:

I am writing to inform you that the U.S. Environmental Protection Agency has completed additional area designations for the National Ambient Air Quality Standards for ground-level ozone established in 2015. The enclosed table summarizes the portions of Missouri the agency is designating at this time. These designations are explained more fully in the accompanying technical support document available at: <https://www.epa.gov/ozone-designations/2015-ozone-standards-state-recommendations-epa-responses-and-technical-support>. This action completes area designations for your state.

Improving air quality to protect public health is a shared goal. Through local, state, tribal and national programs, we have made considerable progress to improve ozone air quality throughout the country. Nationwide, monitored levels of ground-level ozone have dropped 31 percent since 1980. I appreciate the work you have done and the partnership we have developed to achieve this reduction.

If you have questions or concerns, please contact me or your staff may contact Troy Lyons, Associate Administrator for the Office of Congressional and Intergovernmental Relations, at lyons.troy@epa.gov, or at (202) 564-5200.

Respectfully yours,

A handwritten signature in black ink, appearing to read "Scott Pruitt", written over the typed name.

E. Scott Pruitt
