June 16, 2020 and July 15, 2020

Note: "Concern Info" refers to the information provided to the department by the concerned party. The information seeks to accurately reflect the nature of the allegations as it was made. Those statements of allegations do not necessarily reflect the legal

Region	Investigation Date	Date Received	Suspected Source Owner/Operator	City/County	Type of Concern	Inspector Initials	NOV	RNOV
<p>Concern No. 43192 Concern Info My concern is the nuisance fires and air pollution created on the property at 34812 E Neil Chiles Rd. This property is direct north of my residence. The current resident of this property is Jeremy D Gist. Since the summer of 2019 a company called Mackey Tree Service of 18925 E 6th Street N. Independence, MO has been dumping and burning the remnants of the brush they have cut on an approximately bi-weekly basis. This includes not only large brush but also the ground up particles from their truck. The smoke from these fires can be dense and creates headache and trouble breathing inside my residence if a windows are open. I have documented the smoke from these frequent fires with time stamped photographs</p> <p>Comments No violations were noticed at the time of investigation.</p>								
KCRO	6/18/2020	6/10/2020	Ideker - Mosby North Quarry	Mosby Clay	Fugitive Particulate Matter	CK		
<p>Concern No. 43242 Concern Info Concerned party reports at 11 a.m. on June 10, 2020, that it is very windy and the quarry is dusty.</p> <p>Caller called back at 8:15 a.m. on June 11, 2020. The dust plum is almost to Wal-Mart a mile or so east of the quarry. Not as windy today, and the dust is hanging around. Looks like fog or light snow.</p> <p>Caller called back at 8:15 a.m. on June 12, 2020. Dust over the area.</p> <p>Comments No violations noted, dust concern could not be verified.</p>								
KCRO	6/30/2020	6/11/2020	Volger Concrete Co. (Formerly Lincoln Ready Mix)	Lincoln Benton	Fugitive Particulate Matter	CK

Concerns Investigated Between
June 16, 2020 and July 15, 2020

Note: "Concern Info" refers to the information provided to the department by the concerned party. The information seeks to accurately reflect the nature of the allegations as it was made. Those statements of allegations do not necessarily reflect the legal

Region	Investigation Date	Date Received	Suspected Source Owner/Operator	City/County	Type of Concern	Inspector Initials	NOV	RNOV
<p>Concern No. 43200 Concern Info Lincoln concrete plant pumping concrete dust into air. The concerned Party states that this was first notice on January 1, 2917</p> <p>Comments An exceedance of dust opacity limits and or dust leaving property boundaries could not be confirmed during the investigation site visit.</p> <p>Note: There was dust leaving the bag house vent, which indicates that there is an issue with the filter. Once construction permit is finalized, the facility will be subject to special conditions that require the facility to maintain the bag house to the manufacturer's specifications and require the installation of a pressure drop gauge.</p>

Region	Investigation Date	Date Received	Suspected Source Owner/Operator	City/County	Type of Concern	Inspector Initials	NOV	RNOV
	43218		<p>Concern Info I'd like to make a complaint with your office about ground contamination and possibly well contamination and illegal tire burning. I have contacted the Holt County Sheriff Dept many times about this . They just came out and spoke with the neighbor doing this .. I am under the impression that tire burning is illegal. My husband is on oxygen and breathing treatments and this must be stopped. The person several months ago also tried to tap in to my private well and when stopped he made the statement that if I didn't let him tap in to it he would poison it so now I'm afraid to drink the water and have to pay Culligan to bring drinking water to my house.</p> <p>Attached are photos and also a link to a short video of the tire fire today 06/11/2020 in the field behind my house.</p> <p>The person who set the tires a fire is Troy Lawson..</p> <p>He lives in Rockport but runs a illegal junkyard behind my house in a field and he has defaulted on the property contract ar can't get him off the property..</p> <p>Link to tire fire video https://photos.app.goo.gl/A2wPbHDTzrkASNP79</p> <p>My physical address is Linda Stovall 14635 Ember Rd Craig, MO 644337.</p>					
<p>Comments No violations of hazardous waste,however, unsatisfactory findings for scrap tires being issued to RP.</p>

Region	Investigation Date	Date Received	Suspected Source Owner/Operator	City/County	Type of Concern	Inspector Initials	NOV	RNOV
<p>Concern No. 43243 Concern Info Message left on main line: Want to lodge a complaint against the AA Quarry on AA Rd, south of 50 Hwy, east of Lone Jack All the dust from the rock quarry is coming off again. I've asked you people to do something about this. There is so much dust and gravel on the road in front of the rock quarry that every time a car drives by a huge cloud gets thrown up and people will run you off the road to not go through it. We have to do something about this people. Motorcycles can't even go through it. It's ridiculous. This rock quarry needs to be reined in. Thank you.</p> <p>Comments Fugitive dust from public gravel roads is not regulated. AA Quarry will work on track out from their facility.</p>								
KCRO	6/26/2020	6/18/2020	Republic Foods Valley Oaks Steak Company	Lone Jack Johnson	Odor	JH		
<p>Concern No. 43263 Concern Info Odor from Republic Foods/Valley Oaks facility.</p> <p align="center">At my mother and fathers home located at 830 NW 1971 Rd, Lone Jack, MO</p> <p>Comments There was no odor violation, since the odor was too light and inconsistent to use the nasal ranger. The source could not be determine because the odor was so light.</p>								
KCRO	6/22/2020	6/22/2020	AA Quarry	Kingsville Johnson	Fugitive Particulate Matter	MC		

Monthly Air Pollution Control Program Detail Report
Concerns Investigated Between
June 16, 2020 and July 15, 2020

Note: "Concern Info" refers to the information provided to the department by the concerned party. The information seeks to accurately reflect the nature of the allegations as it was made. Those statements of allegations do not necessarily reflect the legal

Region	Investigation Date	Date Received	Suspected Source Owner/Operator	City/County	Type of Concern	Inspector Initials	NOV	RNOV
	Concern No. 43276		Concern Info I'm not sure how many times I have to call this office to complain about the AA Quarry on AA, South of 50 Hwy, Lone Jack area. The gravel dust is leaving the facility as it does every day and there is so much gravel and dust on the road in front of the rock quarry that you cannot possibly drive through it. People ride motorcycles, it's ridiculous. What does it take to get you people to do something about the facility that you allowed to have it					
	Comments	Fugitive dust from public gravel roads is not regulated. AA Quarry will work on track out from their facility.						
KCRO	6/22/2020	6/22/2020	Airgas Supply Store	Independence Jackson	Other	JH		
	Concern No. 43278		Concern Info We live in a neighborhood in Independence that has an industrial park, basically in our back yards. For the last year, ever since the install of a Second Storage Tank, for I believe Oxygen there are continual loud roaring noise from the relief valve release. I'm not sure why now this is happening but it's sometimes two or more times a day and at all hours morning or night. Many times at 2 or 3 in the morning. It is very loud and distracting to any one two or three blocks away. I don't know for sure what the gas is but even oxygen can be harmful under the right situation. I don't know why now this is such an often activity and why it must be. Are tanks being over filled, are release valves set incorrectly, are there no devices to muffle the discharge. This discharge will go on over 10 minutes at times and if in the back yard loud enough to inhibit being able to hear someone 10 feet away from hearing you. Airgas Store					
	Comments	The Missouri Clean Air Law does not regulate oxygen and CO2. There was no violation of the Missouri Clean Air Law or regulations. The Department does not regulate noise

Note: "Concern Info" refers to the information provided to the department by the concerned party. The information seeks to accurately reflect the nature of the allegations as it was made. Those statements of allegations do not necessarily reflect the legal

Region	Investigation Date	Date Received	Suspected Source Owner/Operator	City/County	Type of Concern	Inspector Initials	NOV	RNOV
Concern No. 43309 Concern Info This property contains a house that has asbestos in it - totally buried in the property: 12406 DONIPHAN LAKE ROAD EXCELSIOR SPRINGS, MO 64024. I know this because I was inquiring with the owners to purchase the land and a family member told me about the buried house. I asked the owners and they admitted that the house is there and does contain asbestos, but it is buried, so it should not be an issue. This is very alarming to me. I asked if this would be cleaned up if I bought the property and they stated no.								
Comments Based on the information available, there does not appear to be any current activity at the site that would be regulated. No site visit was conducted.								
KCRO	6/26/2020	6/26/2020	Republic Foods/Valley Oaks	Lone Jack Johnson	Odor	JH		
Concern No. 43358 Concern Info The smell at my house from the CAFO on 50 HWY was so bad, we had to go into the house. It was bothering our breathing								
Comments There was no odor violation, since the odor was too light and inconsistent to use the nasal ranger. The source could not be determine because the odor was so light.								
KCRO	6/26/2020	6/26/2020	Republic Foods/Valley Oaks	Lone Jack Johnson	Odor	JH		
Concern No. 43359 Concern Info Odor from republic foods or valley oaks is forcing us indoors. It is horrible								
Comments There was no odor violation, since the odor was too light and inconsistent to use the nasal ranger. The source could not be determine because the odor was so light.

	Concern No. 43298	Concern Info	Mr. Daniel reported dust on his vehicle and on his patio furniture from grain dust from the Smithson elevator in LaPlata. He also reported seeing a cloud of dust while he was out walking a couple days ago, but that it did not show up in the picture I took. Also, there are molded beans on the ground surrounding the bins causing an odor issue.					
Comments								
I returned a call to Mr. Daniel. He said that he moved to LaPlata in March. He reported dust on his vehicle and on his patio furniture from the Smithson elevator in LaPlata. He also reported seeing a cloud of dust while he was out walking a couple days ago, but that it did not show up in the picture he took. I explained that we would record his report, but would not be investigating as we have not found issues when we have investigated similar reports, and we would only be documenting compliance. I said that if we go out we want to be able to respond when there is more likely going to be a violation. He said that he understood that.								
He also mentioned odors from some spoiled grain that he said another neighbor has said has been there for two years. I said that we have an odor rule but have previously investigated that particular concern and not found a violation. I thanked him for filing the report.

SERO	6/16/2020	6/9/2020	Walter Korte	Steelville Crawford	Open Burning	TR		

Concern No. 43385 **Concern Info** From the CP:
Hello, my neighbor has a dump in the left section of his property just beyond the beginning of the tree line where he buries and burns trash that either he produces or moves from his job sites. I am concerned that the waste is affecting the water air in our neighborhood. This has gone on for a long time, but I was not sure what to do. I wrote above that I first noticed th in 2019, but I believe it has gone on for at least two years.

Comments I spoke with Walter Korte by telephone on June 17, 2020. He stated that he burns household trash, brush from the farm or yard wastes, and vegetativ wastes from his son's landscape business. He burns much less than 80 cubic yards weekly, does have 200 yards to the nearest structure, can burn between sunrise and sunset, etc. None of these things are prohibited activity under 10 Code of State Regulations 10-6.045 Open Burning Requiremer

We are sending a copy of the air regulation (10 CSR 10-6.045) along with the fact sheet: Facts on Open Burning Under Missouri Regulations (PUB02047) by mail to Walter Korte. He stated that he would also like to request a copy of this report.

Concern No. 43409 **Concern Info** "caller reported a resident is burning household insulation next to the caller's residence. caller stated the black smoke produced by the burning material is impacting the caller's health. "

Comments At the time of the investigation, no open burning was taking place. Maggie Shelton stated that recently a couple of large household items had been open burned at that produced black smoke. Maggie Shelton said that she had not heard of the air open burning regulation before. She stated that she had not burned insulation. Moreover, she stated that she would not open burn again.

I gave Maggie Shelton my business card, a copy of the air open burning regulation 10 Code of State Regulations 10-6.045 Open Burning Requirements, the fact sheet Facts on Open Burning Under Missouri Regulations, and the fact sheet Managing Construction and Demolition Waste. I briefly describe the requirements of the regulation.

No violation was observed.

Concern No. 43642 **Concern Info** SP:26119
?RP is burning tires. They are bringing in tires in bit U-haul. They are currently burning them.

Comments On July 1, 2020, I travelled to the area to look for evidence of this tire fire. I found no current open burning and no obvious signs of anyone involved in open burning in the area.

I tried to interview informed personnel in the Sikeston Fire District. I spoke with Sargent Zak Haskins on July 22, 2020. He stated that there are from five to five and even as many as tire fires around Crowder per year. The ownership of the spot where the tire fires occur (known as Crowder Salvage) is not clear. The party or parties responsible for the fires is not known by the authorities (Scott County Sheriff's Office and Sikeston Fire District). In the absence of known involved parties, no violation will be issued.

SERO	6/25/2020	6/24/2020	Lead Belt Gun Club	Bonne Terre St. Francois	Other	TR		

Concern No. 43393 **Concern Info** Concern Party reported the lead from the gun range at the Lead Belt Gun Club is going into Big River. The debris from the shots is hitting individuals if they are in the area at the time. The Sheriff has been contacted and his advice was to not be in the area if they are shooting. Dept of Conservation said they can not do anything about it.

Comments There are no permit requirements for Shooting Ranges under Missouri's Hazardous Waste Management Laws. The normal operations of a shooting range are not considered to be generators of waste. The reclamation of scrap metal is not regulated as hazardous waste management. Unless the range is closed or goes through a cleaning activity involving the generation disposal or discarding of expended shot, which would include bullets, shot, shell fragments and contaminated media it is not regulated.

I arranged for a fact sheet to be mailed to Dave Bahr, acting Treasurer for Lead Belt Gun Club. The fact sheet is titled Shooting Ranges-Environmental Regulations and Best Management Practices (PUB2450) and it summarizes environmental regulations and requirements that apply to shooting range

SERO	7/1/2020	6/30/2020		Steele Pemiscot	Open Burning	TR		

Concern No. 43640 **Concern Info** SP:26315
A resident called the Spill Line to report that a homeowner is burning down a demolished house located at 2698 Roxie Road just outside of Poplar Bluff, local fire didn't want to put it out but he doesn't believe the owner should be allowed to burn.

Comments I began this investigation on June 29, 2020. The fire that was started on June 27, 2020, was still burning. I took photographs from off property because the property was posted for trespassing. I called and left messages for James P. Hayes on June 30, 2020, and July 2, 2020. I spoke with James P. Hayes on July 2, 2020, and again on July 8, 2020. James P. Hayes admitted to burning demolition wastes including painted wood, laminated wood flooring, and drywall in violation of 10 CSR 10-6.045 Open Burning Requirements.

During the July 8, 2020, telephone call, James P. Hayes stated I could not come on his property to look around and to take additional photographs. James P. Hayes believed that I had not been helpful because I would not identify of the concerned party for this environmental concern over the telephone and because I did not explain whether diesel or unleaded gasoline burn cleaner. James P. Hayes further stated that since I work in air pollution it is my job to know all there is to know about air pollution.

Concern No. 43599 **Concern Info** SP:
an individual that has been digging massive holes in his yard and burning illicit material by taking a backhoe digging the holes and placing tires and possible other illicit material in these holes and burning them in a pit and then covering whatever remains there are with dirt and burying them. This has evidently been going on for some time according to the complaint

Comments At the time of this investigation, no open burning was taking place. Dale Dodd stated that 5 or 6 tires had been open burned accidentally with household trash. The open burning of tires is prohibited in 10 Code of State Regulations 10-6.045 Open Burning Requirements (3)(A)1.

A Letter of Warning was issued to Dale Dodd for this violation.

<p>Tenants to west of concerned parties. Open field where they are burning an old trailer that was an old "meth" trailer from about 7 years ago. Now they are burning illegal materials every night. Concerned they are on drugs, and does not want repercussions from reporting them. Anonymous concerned party is certain that they are burning "meth" trash and parts of the trailer are burned. The burning smells like tires and a strong chemical odor.</p> <p>Already spoke with Jasper County Health Department and issued violation for overgrown vegetation. Contacted fire department, and were not able to help with the issue. The Sheriff is also familiar with the trailer homes, as there has been a lot of meth and drug traffic.</p> <p>4 travel trailers and 1 single wide and the additional single wide that has been burned. They have noticed more and more chunks missing from the single wide that has probably been burned.</p> <p>You won't be able to see the burn pile from the road, because it is surrounded by the trailers. But the fire is close to the trailers.</p> <p>Call law enforcement before going out in case the residents are on drugs.</p>
