Attainment Demonstration Modeling Output Files (Plotfiles)

Appendix E. Attainment Demonstration Modeling Output Files (Plotfiles)

Plotfiles for all 6 sub-grids are included below. Plotfiles yield the 5-year average 4th high value at each receptor which is comparable to the NAAQS. Other output files are optional, such as MAXDCONT file. Other output files were used in the iterative process of determining a final compliant scenario, however, once that scenario is reached, the plotfiles are the only output option necessary to demonstrate compliance with the NAAQS.
