MAY - 4 2018

Mr. Jim Gulliford  
Regional Administrator  
U.S. EPA, Region VII  
11201 Renner Boulevard  
Lenexa, KS  66219

Dear Mr. Gulliford:

The Missouri Department of Natural Resources’ Air Pollution Control Program (air program) hereby clarifies both the request for EPA consideration and the associated request for EPA approval of the following Missouri State Implementation Plan (SIP) revision submittal:

Redesignation Request and Maintenance Plan for the 2010 Sulfur Dioxide Standard Jefferson County Nonattainment Area

The air program submitted this SIP action, and associated SIP revision request, to EPA, dated December 21, 2017. After discussion with EPA staff, it was determined there may be some confusion on whether Appendices are part of the SIP revision submittal.

This letter clarifies Appendices A and B of the Jefferson County SO2 Maintenance Plan (Maintenance Plan) should indeed be considered part of the SIP revision request. For example, Appendix B “2015 Consent Agreement for Jefferson County SO2 Maintenance Area” is the Maintenance Plan’s permanent and enforceable mechanism for the respective emission limits and associated requirements. Thus, Appendix B is part of the December 21, 2017, SIP revision request.

Thank you for the opportunity to revisit this SIP action & associated SIP revision submittal. If you have any questions regarding this SIP clarification, please contact Ms. Emily Wilbur with the Missouri Department of Natural Resources’ Air Pollution Control Program at P.O. Box 176, Jefferson City, MO  65102 or by telephone at (573) 751-4817.

Sincerely,

AIR POLLUTION CONTROL PROGRAM

Darcy A. Bybee  
Director
