ACTIONS FOR PUBLIC HEARING

- * Missouri State Implementation Plan Revision - Infrastructure Elements for the 2015 Ozone Standard

This plan addresses infrastructure elements for the 2015 ozone 8-hour National Ambient Air Quality Standard (NAAQS), as required by Clean Air Act Section 110. The plan provides for the implementation, maintenance, and enforcement of this standard for all areas of the state. Missouri is demonstrating it has adequate resources and authority to implement the 2015 ozone NAAQS through state laws and regulations. Pursuant to Clean Air Act Section 110(a)(2)(G), this submission also requests the U.S. Environmental Protection Agency (EPA) to exempt two areas in the state from the requirement to have a contingency plan in place for ozone emergency episodes. Missouri is developing separate plans to address the Clean Air Act elements pertaining to nonattainment areas and the interstate transport provisions for the 2015 ozone NAAQS. If the commission adopts this plan, the department intends to submit it to EPA for inclusion in the Missouri State Implementation Plan.

ACTIONS FOR PUBLIC HEARING

- * Missouri State Implementation Plan Revision – Interstate Transport Provisions for the 2015 Ozone Standard

This plan demonstrates how Missouri’s State Implementation Plan (SIP) meets the requirements of Clean Air Act Section 110(a)(2)(D)(i)(I) for the 2015 ozone National Ambient Air Quality Standard (NAAQS). This plan demonstrates how Missouri is addressing the requirement that every state’s SIP must include provisions that prohibit emissions in the state from significantly contributing to nonattainment or interfering with maintenance of the 2015 ozone NAAQS in any downwind state. If the commission adopts this plan, the department intends to submit it to EPA for inclusion in the Missouri State Implementation Plan.
