RE: New Source Review Permit Correction - Permit Number: 112015-009A
Project Number: 2017-09-015; Installation Number: 031-0135

Dear Mr. Cook:

This letter is in reference to your installation of a sludge drying system at the new wastewater treatment facility. After a phone conversation on September 15, 2017 between Todd Fulton and Kathy Kolb, Air Pollution Control Program is revising a statement in the construction permit that indicated that you would be required to obtain an operating permit. As stated in your permit 112015-009, emissions from all pollutants are expected to be below de minimis levels and therefore no operating permit is required. If after testing, stack test results are higher emissions than those stated in the permit, an amendment to that permit is required to reflect actual emissions.

If you were adversely affected by this permit decision, you may be entitled to pursue an appeal before the administrative hearing commission pursuant to Sections 621.250 and 643.075.6 RSMo. To appeal, you must file a petition with the administrative hearing commission within thirty days after the date this decision was mailed or the date it was delivered, whichever date was earlier. If any such petition is sent by registered mail or certified mail, it will be deemed filed on the date it is mailed; if it is sent by any method other than registered mail or certified mail, it will be deemed filed on the date it is received by the administrative hearing commission, whose contact information is: Administrative Hearing Commission, United States Post Office Building, 131 West High Street, Third Floor, P.O. Box 1557, Jefferson City, Missouri 65102, phone: 573-751-2422, fax: 573-751-5018, website: www.oa.mo.gov/ahc.
