RE: New Source Review Permit Amendment - Permit Number: 012017-012A
Project Number: 2017-07-064; Installation Number: 211-0014

Dear Mr. Keith:

On July 31, 2017, Air Pollution Control Program received your request to amend permit #012017-012. Farmland Foods, Inc. will be adding two 15MMBTU/hr natural gas hot water heaters instead of the one 30 MMBTU/ hr as originally submitted in the initial permit application.

Farmland Foods, Inc. Engineering Department worked together with the equipment manufacturer on the project and the decision was made after the permit was issued that it would be better served with two heating units at 15 million BTU/hr each instead of the single unit at 30 MMBTU/hr. Therefore, there is no increase to the total amount of natural gas combustion but an addition of another emission point as shown in Table 1 below.

Table 1: Emission Points

Emission Points	MHDR/Description
EP-20	15 MMBTU/hr – Natural Gas hot water heater
EP-21	15 MMBTU/hr – Natural Gas hot water heater
