

# Missouri Brownfields Conference

Monday, July 16, 2018

Tan-Tar-A Resort / Lake of the Ozarks

## Session 1

### [Brownfields 101 – A Beginners Guide to Brownfield Redevelopment](#)

This session will introduce the participant to the world of brownfield redevelopment. We will walk you through the terms, processes, partners, resources, and more.

Speakers: Catherine Jones and Scott Huckstep – MoDNR

## Session 2

### [How to Begin the Brownfield Redevelopment Process](#)

Assistance is available to help your community members get involved in Brownfield cleanup and redevelopment. Information will be shared with the participants about how to obtain a list of potential Brownfields in your community, and how to use the Brownfield Inventory Tool to track progress on the remediation and redevelopment of your brownfield sites. Come learn about Kansas State University's Technical Assistance to Brownfields (TAB) program and how they provide free-of-charge assistance with community outreach, strategic planning, redevelopment visioning, identifying funding sources, and much more.

Speakers: Maggie Weiser – K-State University TAB Program, and Bobbie Pennington - MoDNR

## Session 3

### [Brownfield Assessments and Available Resources](#)

Phase I and Phase II assessment - What does it mean and why would I want one? How much will it cost to remediate my Brownfield site? How can I find money to cleanup my Brownfield site? These questions and more will be answered in this session as many different Brownfield partners recognize and describe the variety of technical and financial assistance resources available for Brownfield assessment, remediation, and redevelopment. The session will also provide information on how to contact these resources for more detailed information and eligibility requirements.

Speakers: Brian McCurren, Christine O'Keefe, Catherine Jones, Maggie Weiser, Kristin Allan Tipton, Brad Eaton, and others.

## Session 4

### [Ask the Brownfields Project Manager!](#)

This session brings together a technical panel of the Missouri DNR Brownfields / Voluntary Cleanup Program's (BVCP) Project Managers. It will be your opportunity to ask questions about the various activities in the Brownfield Assessment Program, the Voluntary Cleanup Program, and more. Come hear topics related to Eligibility, Work Plans, Costs, Vapor Intrusion, Reports, Permits, MRBCA, Certificates of Completion, and more.

Panelists: Brian McCurren, Chris Cady, Christine O'Keefe, Mike Washburn, Wes March, Cailie Carlile, and Bobbie Pennington.
