Dear Mr. Schuermann:

The Missouri Department of Natural Resources has completed its review of the above referenced documents. I would like to thank you for the opportunity to review this final closeout for Environmental Restoration Program (ERP) Site No. 2. The department concurs with the findings and the results of this report. The department has no additional comments at this time.

The department has also reviewed the *Draft No Further Action Record of Decision*, and we believe this document to be complete. The department concurs with this document and finds it adequate to move forward with the final No Further Action Record of Decision, and ultimately toward closure of the four ERP sites located on the 157th Air Operations Group, Jefferson Barracks Air National Guard Station. We look forward to reviewing the finalized document and assisting with the closing out of the ERP sites.
