RE: Approval of Class 1 Permit Modification with Prior Director's Approval  
Lake City Army Ammunition Plant, Independence, Missouri  
EPA ID# MO4213820489

Dear Ms. Casey:

The Missouri Department of Natural Resources (Department) hereby approves Lake City Army Ammunition Plant's (LCAAP) Class 1 Permit Modification request, dated January 9, 2015, without changes. This request is a modification of a previously approved permit modification. The original request, dated July 28, 2014, was to change operational control of the facility referenced above from Alliant Techsystems Operations, LLC, to Orbital ATK. The Department approved this request in a letter dated August 25, 2014. However, it has been determined after the approval, that no change in operational control will take place. The operator will remain Alliant Techsystems Operations, LLC. This modification request is to change operational control of the facility back from Orbital ATK to Alliant Techsystems Operations, LLC.

The Department agrees with LCAAP that this is a Class 1 Permit Modification requiring prior director approval, according to Code of State Regulations [10 CSR 25-7.270(1)], which incorporates the Code of Federal Regulations [40 CFR 270.42, Appendix I, A.7]. LCAAP must send a notice of the modification to everyone on their facility mailing list and the appropriate units of state and local government within 90 calendar days after the date of this letter, according to 10 CSR 25-7.270(1) and 10 CSR 25-7.270(2)(A)6, which incorporates and modifies 40 CFR 270.42(a)(1)(ii). LCAAP must send a copy of the notice to the Department.
