RE: Class 1 Permit Modification with Prior Director's Approval
AK Steel Corporation, Kansas City, Missouri
EPA ID# MOD007118029

Dear Mr. Levensgood:

The Missouri Department of Natural Resources (Department) approves AK Steel's Class 1 Permit Modification request, dated December 21, 2011. The request updates the facility's post-closure plan. These modifications update the facility's point of contact, the overland access route to the closed *Resource Conservation and Recovery Act* landfill, on-site security services and remote monitoring, and the maintenance plan to include periodic mowing of the landfill cap. We are approving the Class 1 Permit Modification requiring prior director approval.

AK Steel must send a notice of the modification to everyone on their facility mailing list and the appropriate units of state and local government within 90 calendar days after the date of this letter, as outlined in Code of Federal Regulations 40 CFR 270.42(a)(1)(ii), incorporated by reference in Code of State Regulations 10 CSR 25-7.270(1). AK Steel must send a copy of the notice to the Department.

If you have questions regarding this letter, please contact Christine Kump-Mitchell, P.E., of my staff at the Missouri Department of Natural Resources, 7545 South Lindbergh, Suite 210, St. Louis, MO 63125-4839, by telephone at (314) 416-2464 or 1-800-361-4827, or by e-mail at christine.kump@dnr.mo.gov. Thank you.

Sincerely,

HAZARDOUS WASTE PROGRAM
