RE: Class 1 Permit Modification with Prior Director's Approval  
Holcim (US) Incorporated/Geocycle, LLC; Clarksville, Missouri  
EPA ID# MOD029729688

Dear Mr. Schlosser:

The Missouri Department of Natural Resources (Department) approves Holcim (US) Incorporated's (Holcim)'s Class 1 Permit Modification request, dated February 6, 2013, without changes. The modification request was submitted by Golder Associates on behalf of Holcim.

The request was to remove the parcels of land listed below, which are described in the original letter request and located on the enclosed figure, from the Holcim hazardous waste management facility as defined by the Missouri Hazardous Waste Management Facility Permit (Permit) dated May 2, 2000:

1. Transwood Inc. facility,
2. Baseball field, and
3. Ameren Missouri Electrical Substations-
  - Fitters Substation, and
  - Calumet Substation.

After review of the history of these parcels, a site inspection was performed on March 21, 2013. The Department found no indications that the properties had been used to manage hazardous waste. Therefore, these parcels are no longer considered regulated under the Permit.

Holcim must send a notice of this modification to everyone on their facility mailing list and the appropriate units of state and local government within 90 calendar days after the date of this

letter, as outlined in Code of Federal Regulations 40 CFR 270.42(a)(1)(ii), incorporated by reference in Code of State Regulations 10 CSR 25-7.270(1) and modified by 10 CSR 25-7.270(2)(A)6 and 10 CSR 25-7.270(2)(B)10. Holcim must also send a copy of the notice to the Department.

If you have questions regarding this letter, please contact Mr. Dave Walker, Project Manager, of my staff at the Missouri Department of Natural Resources, Hazardous Waste Program, P.O. Box 176, Jefferson City, MO 65102-0176, by telephone at (573) 751-3553 or 1-800-361-4827, or by e-mail at [dave.walker@dnr.mo.gov](mailto:dave.walker@dnr.mo.gov). Thank you.

Sincerely,

HAZARDOUS WASTE PROGRAM
