RE: Class 1 Permit Modification without Prior Director's Approval
Updates to Emergency Contact List
Exide Technologies, Incorporated, Forest City, Missouri
EPA ID# MOD030712822

Dear Mr. Chikunya:

The Missouri Department of Natural Resources (DNR) received Exide Technologies Incorporated's (Exide) Class 1 Permit Modification notice, dated April 11, 2014. The notification was to update the emergency contact list in the contingency plan. The DNR agrees with Exide that this is a Class 1 Permit Modification not requiring prior director approval. Exide has already sent the updated contingency plan to their local emergency contacts; however, the DNR believes that with the recent construction at the site, an updated site layout map should be included.

Exide must send a notice of the modification to everyone on their facility mailing list and the appropriate units of state and local government within 90 calendar days after the change was put into effect, as outlined in Code of State Regulations 10 CSR 25-7.270(1) which incorporates Code of Federal Regulations 40 CFR 270.42(a)(1)(ii). Exide must send a copy of the notice to the DNR.

If you have questions regarding this letter, please contact Nathan Kraus, P.E., of my staff at the Missouri Department of Natural Resources, Hazardous Waste Program, P.O. Box 176, Jefferson City, MO 65102-0176, by telephone at (573) 751-3553 or 1-800-361-4827, or by e-mail at nathan.kraus@dnr.mo.gov. Thank you.

Sincerely,

HAZARDOUS WASTE PROGRAM
