RE: Class 1 Permit Modification Without Prior Director's Approval
Name and Address Change of the Site's Legal Owner and Other Informational Changes
EaglePicher Technologies, LLC, Joplin, Missouri
EPA ID# MOD046740148

Dear Mr. Ideker:

The Missouri Department of Natural Resources (Department) received EaglePicher Technologies (EPT), LLC's Class 1 Permit Modification notice, dated April 18, 2015. The notification was for administrative and informational changes to the permit. The notification corrected the cover sheet to EPT's Missouri Hazardous Waste Management Facility Part I Permit, dated September 28, 2010, and provided changes to the Part A Permit Application, dated March 24, 2010, to reflect a change of parent company name and address of the site's legal owner from OM Group, Incorporated, to Vectra Company and other information regarding the waste activities at the site.

The Department agrees with EPT that this is a Class 1 Permit Modification not requiring prior director approval, according to Code of State Regulations 10 CSR 25-7.270(1), which incorporates Code of Federal Regulations 40 CFR 270.42(a) and 40 CFR 270.42 Appendix I(A)(1). EPT sent a notice of the modification to everyone on their facility mailing list and the appropriate units of state and local government within 90 calendar days after the change was put into effect, according to 10 CSR 25-7.270(1), which incorporates 40 CFR 270.42(a)(1)(ii).

The changes provided to EPT's Part A Permit Application, such as changes to the waste codes of hazardous wastes handled at the facility and changes in Universal Waste Activities conducted at the facility, indicate that EPT may be required to submit a Notification of Regulated Waste Activity Form to the Department within 30 calendar days of the date of this letter. The form is
