RE: Class 1 Permit Modification Without Prior Director's Approval
Liquid Waste-Derived Fuels Feed System Piping-Precalciner
Continental Cement Company, LLC/Green America Recycling, LLC
Hannibal, Missouri, EPA ID# MOD054018288

Dear Ms. Farr:

This letter is to notify you that the Missouri Department of Natural Resources (Department) received Continental Cement Company, LLC/Green America Recycling, LLC's (CCC/GAR) Class 1 Permit Modification notice, dated June 21, 2010. The notification was for the equipment replacement and upgrade of the piping contained in the precalciner system in four separate locations to include a welded flange assembly to provide access for maintenance on the piping system. The corresponding Organic Emission Monitoring Inspection Report and drawing have also been amended to include these inspection points.

The Department agrees with CCC/GAR that this is a Class 1 Permit Modification not requiring prior director approval. CCC/GAR must send a notice of the modification to everyone on their facility mailing list and the appropriate units of state and local government within 90 calendar days after the change was put into effect, as outlined in Code of Federal Regulations 40 CFR 270.42(a)(1)(ii), incorporated by reference in Code of State Regulations 10 CSR 25-7.270(1). CCC/GAR must send a copy of the notice to the Department.

Ms. Andrea Farr
