RE: Class 1 Permit Modification with Prior Director's Approval – Addition of Waste Codes
Continental Cement Company, LLC/Green America Recycling, LLC
Hannibal, Missouri, EPA ID# MOD054018288

Dear Ms. Farr:

The Missouri Department of Natural Resources' (Department) Hazardous Waste Program received Continental Cement Company, LLC/Green America Recycling, LLC's (CCC/GAR) Class 1 Permit Modification request dated April 4, 2011, and the revised Part A dated April 15, 2011. The modification request was for the addition of several waste codes.

The Department found the information to be complete and determined that addition of these waste codes does not constitute the need for additional units or different management practices.

The Department agrees with CCC/GAR that this is a Class 1 permit modification requiring prior director approval and approves the modification request.

CCC/GAR must send a notice of the modification to everyone on their facility mailing list and the appropriate units of state and local government within 90 calendar days after the date of this letter, as outlined in Code of Federal Regulations 40 CFR 270.42(a)(1)(ii), incorporated by reference in Code of State Regulations 10 CSR 25-7.270(1). CCC/GAR must send a copy of the notice to the Department.
