Dear Ms. Farr:

The Missouri Department of Natural Resources (Department) received Green America Recycling, LLC's Class 1 Permit Modification notice, dated May 18, 2012. The request was to upgrade existing fuel lines with functionally equivalent equipment allowing Green America Recycling, LLC, the ability to unload railcars in the rail storage compound located at Container Storage Area #3 without having to reposition the railcars once they are staged and secured.

The Department agrees with Green America Recycling, LLC, that this is a Class 1 Permit Modification not requiring prior director approval. Green America Recycling, LLC, must send a notice of the modification to everyone on their facility mailing list and the appropriate units of state and local government within 90 calendar days after the change was put into effect, as outlined in Code of Federal Regulations 40 CFR 270.42(a)(1)(ii), incorporated by reference in Code of State Regulations 10 CSR 25-7.270(1). Green America Recycling, LLC, must send a copy of the notice to the Department.

If you have questions regarding this letter, please contact Mr. Timothy O'Brien, Project Manager, of my staff at the Missouri Department of Natural Resources, Hazardous Waste Program,
