RE: *Resource Conservation and Recovery Act* Part A Permit Application - Class 1  
Modification With Prior Director's Approval – Addition of Waste Code – U202  
Green America Recycling, LLC, Hannibal, Missouri  
EPA ID# MOD054018288

Dear Ms. Farr:

The Missouri Department of Natural Resources' (Department) Hazardous Waste Program received Green America Recycling, LLC's (GAR) Class 1 Permit Modification request, dated July 31, 2012, and revised *Resource Conservation and Recovery Act* (RCRA) Part A, dated July 31, 2012. The request was for the addition of waste code U202, Saccharin & Salts, to be managed under the facility's approved Permit.

The Department found the information to be complete and determined that the additional waste code does not constitute the need for additional management protocols. The Department agrees with GAR that this is a Class 1 Permit Modification requiring prior approval and approves the modification request.

GAR must send a notice of the modification to everyone on their facility mailing list and the appropriate units of state and local government within 90 calendar days after the date of this letter, as outlined in Code of Federal Regulations 40 CFR 270.42(a)(1)(ii), incorporated by reference in Code of State Regulations 10 CSR 25-7.270(1). GAR must send a copy of the notice to the Department.
