Dear Ms. Mayfield:

The Missouri Department of Natural Resources (Department) reviewed Green America Recycling, LLC/Continental Cement Company, LLC (GAR/CCC) Class 1 Permit Modification notice, received November 13, 2015. The notification was to replace an existing waste fuel feed pump to the kiln with an equivalent pump. No changes were proposed to flow rates or types of waste associated with the replacement pump.

The Department agrees with GAR/CCC that this is a Class 1 Permit Modification not requiring prior director approval, according to Code of State Regulations 10 CSR 25-7.270(1), which incorporates Code of Federal Regulations 40 CFR 270.42, Appendix I, A.3. GAR/CCC sent a notice of the modification to everyone on their facility mailing list and the appropriate units of state and local government within 90 calendar days after the change was put into effect, according to 10 CSR 25-7.270(1) and 10 CSR 25-7.270(2)(A)6, which incorporates and modifies 40 CFR 270.42(a)(1)(ii). The Department received a copy of the mailing list notification along with the November 23, 2015, modification request.
