RE: Approval of Class 1 Permit Modifications Without Prior Director's Approval  
Contingency Plan Updates  
Buick Resource Recycling Facility, LLC, Boss, Missouri  
EPA ID# MOD059200089

Dear Mr. Lanzafame:

The Missouri Department of Natural Resources (department) received Buick Resource Recycling Facility, LLC's (Buick) Class 1 Permit Modification notices, dated April 21, 2017 and May 8, 2017. The notifications update the site contingency plan with contact information for emergency coordinators; condenses the two contingency plans (i.e., site operations and slag storage area) into one plan; and adds information required by the Department of Homeland Security into the contingency plan.

The department agrees with Buick that these are Class 1 Permit Modifications according to Code of State Regulations 10 CSR 25-7.270(1), which incorporates Code of Federal Regulations 40 CFR 270.42, Appendix I, B.6.d and 40 CFR 270.42, Appendix I.A.1. Buick must send a notice of these modifications to everyone on their facility mailing list and the appropriate units of state and local government within 90 calendar days after the changes were put into effect, according to 10 CSR 25-7.270(1), which incorporates 40 CFR 270.42(a)(1)(ii). Buick must send a copy of the notice to the department.
