RE: Class 1 Permit Modification Without Prior Director's Approval
Archimica, Incorporated, Springfield, Missouri
EPA ID# MOD095038329

Dear Ms. Luxton:

The Missouri Department of Natural Resources (Department) received Archimica, Incorporated's (Archimica) Class 1 Permit Modification notice, dated February 23, 2011. The notification was to correct a typographical error on page 24, Table 1 – Groundwater Protection Standards, of Archimica's Missouri Hazardous Waste Management Facility Part I Permit, dated September 30, 2010. The correction requested that on page 24, under Table 1 – Groundwater Protection Standards, footnote (b), a sentence should be added as follows: "The limit for 2,3,7,8-TCDD is in nanograms per liter (ng/L)."

The Department agrees with Archimica that this is a Class 1 Permit Modification not requiring prior director approval. Archimica must send a notice of the modification to everyone on their facility mailing list and the appropriate units of state and local government within 90 calendar days after the change was put into effect, as outlined in Code of Federal Regulations 40 CFR 270.42(a)(1)(ii), incorporated by reference in Code of State Regulations 10 CSR 25-7.270(1). Archimica must send a copy of the notice to the Department.
