RE: Class 1 Modification Request – U202 Waste Code  
Lone Star Industries, Incorporated, Cape Girardeau, Missouri  
EPA ID# MOD981127319

Dear Mr. Meyr:

The Missouri Department of Natural Resources' (Department) Hazardous Waste Program received Lone Star's Class 1 Permit Modification request and revised *Resource Conservation and Recovery Act* (RCRA) Part A, dated August 10, 2012. The request was for the addition of waste code U202, Saccharin & Salts, to be managed under the facility's approved Permit.

The Department found the information to be complete and determined that the additional waste code does not constitute the need for additional management protocols. The Department agrees with Lone Star that this is a Class 1 Permit Modification requiring prior approval and approves the modification request.

Lone Star shall send a notice of the modification to everyone on their facility mailing list and the appropriate units of state and local government within 90 calendar days after the date of this letter, as outlined in Code of Federal Regulations 40 CFR 270.42(a)(1)(ii), incorporated by reference in Code of State Regulations 10 CSR 25-7.270(1). Lone Star shall send a copy of the notice to the Department.
