RE: Class 1 Permit Modification Without Prior Director's Approval
EBV Explosives Environmental Company, Joplin, Missouri
EPA ID# MOD985798164

Dear Mr. Zoghby:

This letter is to notify you that the Missouri Department of Natural Resources (Department) received EBV Explosives Environmental Company's (EBVEEC) Class 1 Permit Modification notice, dated March 2, 2010. The notification was to notify the Department of the need to extend the stack elevation for Building #3 Air Pollution Control System from 50' to 100'. This change was needed due to the lower than expected elevation of the system in relation to Building #1. This modification will have no effect on the operation of the Air Pollution Control System. Additionally, Section 19.19.5.6 of the permit application has been modified to reflect the appropriate stack elevation.

The Department agrees with EBVEEC that this is a Class 1 Permit Modification not requiring prior director approval. As outlined in Code of Federal Regulations 40 CFR 270.42(a)(1)(ii), EBVEEC must send a notice of the modification to everyone on their facility mailing list and the appropriate units of state and local government within 90 calendar days after the change was put into effect. EBVEEC must send a copy of the notice to the Department.

Mr. David R. Zoghby
