

STATE OF MISSOURI
MISSOURI DEPARTMENT OF NATURAL RESOURCES
SOLID WASTE MANAGEMENT PROGRAM
SOLID WASTE MANAGEMENT DISTRICT ANNUAL REPORT

<p>1. SOLID WASTE MANAGEMENT DISTRICT North Missouri Solid Waste Management District - Region B 1104 Main Street Trenton, Missouri 64683</p>	<p>2. FISCAL YEAR PERIOD: FROM JULY 1, 2010 TO JUNE 30, 2011</p>
<p>GOALS AND ACCOMPLISHMENTS</p>	

RECEIVED BY
DEC 19 2011
SWMP OPERATIONS

3 (a). What waste goals did the district have for the fiscal year period and what actions did the district take to achieve these goals?

Goal #1 & #2 - The North Missouri Solid Waste Management District - Region B's goals for the fiscal year ending June 30, 2011, was to contact atleast two schools and two businesses in our 11-county region to find out what type of waste that they produced and how they could divert some of the items from the solid waste stream. The District will work with them to start or expand their recycling efforts, with a motto to start small and get them in the habit of recycling and then eventually expanding their program.

Action for #1 & #2 - The District was contacted by some of the schools this year on promoting recycling due to the letters that the District sent out to each of the fifty-one schools that are in our area on promoting Missouri Recycling Day, Earth Day, Funding Availability, etc. These letters have seemed to work and we will continue to send out all important information in the future. The District has started a listing of businesses that recycle and what they recycle. We are adding what they will take from the public and the charges that may apply. This will be an ongoing goal of the District until every town has been contacted and we have a list of every business and what they recycle.

Goal #3 - Compile a list of all schools in our 11 county region - with a list of what they recycle and the diversion rate that they have.

Action for #3 - The District applied for a grant to purchase bins, and even though we were not successful this year, we did purchase several smaller bins. We have distributed the bins to schools for their recycling programs. The schools send reports to the District on what they have collected and how much they collected. The District has started the list, but it will take some time to talk to each school.

Goal #4 - Work on a indepth list of all recycling centers listing exactly that they will collect and work with them on moving their recycling products.

Action to Achieve #4 - The District has a list of the recycling centers. The economy has improved and centers are back to taking items again.

Goal #5 - Work with the Missouri Department of Natural Resources on the County Wide tire collections.

Action to Achieve #5 - Ann Hamilton presented to the full board of directors, the opportunity to have a one time collection that DNR would pay for the disposal cost of the tires if they could supply the labor for the collection to load the trailers. So far there has been two counties (Linn and Chariton) and one city (Mendon) that have taken advantage of the program. Currently, DNR isn't adding new Cities or Counties until the Fall of 2012.

Goal #6 - To provide atleast five county collections for electronics, appliances, batteries, and household hazardous waste.

Action to Achieve #6 - The District did five collections this year, including the Counties of Harrison, Grundy, Livingston, Carroll, and Chariton.

Goal #7 - To apply for additional grants for recycling containers.

Action to Achieve #7 - The District applied for a container grant and a USDA grant and was not successful, but will continue to try.

Goal #8 - To purchase some of the portable recycling containers and work with at least two cities on special event collections.

Action to Achieve #8 - The District actually borrow some recycling containers from other Districts to see if people would be interested in the special event recycling. This was successful. Eventhough there wasn't a lot of items collected, with more education and posters about what to recycle at the events will help. The District received a grant to purchase the special containers for special events, including camps, fairs, and carnivals.

Goal #9 - To work on diverting items that are on our Districts target list. The District has been working with public officials on setting up some kind of recycling program. This will be an extremely hard goal for our District, since there are not many recycling centers in our area. We will continue working with the recycling centers to get the items picked up or delivering the items to the centers for sorting.

Action to Achieve #9 - The planner has been working with all of the counties trying to get recycling programs started in their area.

Goal #10 - Promote Recycling at the State Fair.

Action to Achieve #10 - This year, Region B went and talked to the vendors and explained where they could recycle their cardboard. There were bins placed throughout the fair grounds for recycling of plastics, cans, and cardboard.

3 (b). What waste goals does the district have for the upcoming fiscal period and what actions does the district plan to take to achieve these goals. Please include the types of grant proposals that will be sought for the upcoming period to assist in meeting these goals.

Goal #1 - Contact at least two schools to see about their recycling needs.

Goal #2 - Contact at least two business to see about their recycling needs.

Goal #3 - Compile a list of all schools in our 11 county region - with a list of what they recycling and the diversion rate that they have.

Goal #4 - Work on a indepth list of all recycling centers listing exactly that they will collect and work with them on moving their recycling products.

Goal #5 - Work will the Missouri Department of Natural Resources on the County Wide tire collections.

Goal #6 - To provide atleast five county collections for electronics, appliances, batteries, and household hazardous waste.

Goal #7 - To apply for additional grants for recycling containers.

Goal #8 - To purchase some of the portable recycling containers and work with at least two cities on special event collections.

Goal #9 - To work on diverting items that are on our Districts target list. The District has been working with public officials on setting up some kind of recycling program. This will be an extremely hard goal for our District, since there are not many recycling centers in our area. We will continue working with the recycling centers to get the items picked up or delivering the items to the centers for sorting.

Goal #10 - Promote recycling at the Missouri State Fair.

Goal #11 - Work on starting a glass recycling program.

4 (a). What recycling goals did the district have for the fiscal year period and what actions did the district take to achieve these goals?

1. The District wanted to continue the battery and ink jet recycling program, and added cell phones and rechargeable batteries to the collections. The District will continue to purchase containers until they have one in each City Hall and School in our 11 county region.

2. The District wanted to work with recyclers in our region to utilize district grant funds to create or expand upon they recycling industry in our region; especially projects that work impant the region's economic development. The District has been working with three of our Sheltered Workshops and provided new equipment for them to help with the efficiency of their business. The economy has been a big factor at the beginning of the year, but the markets have improved and the sheltered workshops and recyclers are able to move the product that they have collected.

4 (b). What recycling goals does the district have for the upcoming fiscal year period and what actions does the district plan to take to achieve these goals? Please include the types of grant proposals that will be sought for the upcoming period to assist in meeting these goals.

Goal #1 - Contact at least two schools to see about their recycling needs. (PI)

Goal #2 - Contact at least two business to see about their recycling needs. (PI)

Goal #3 - To purchase some of the portable recycling containers and work with at least two cities on special event collections. (CC)

5 (a). What resource recovery goals did the district have for the fiscal year period and what actions did the district take to achieve these goals?

Goal #1 - Have five electronic collections - accomplished by charging fees to residents for their electronics. The District has had a huge amount of televisions that were brought in to be recycled.

Goal #2 - To concentrate on paper, plastics, and aluminum that is easily recycled and transported to recycling centers, keeping them out of the landfills and conserving our natural resources. The District is working with county officials to see if they would be interested in moving a recycling trailer if there was one available to areas in their county where recycling was not available.

Goal #3 - The District wants to focus on grant applications that would offer recycling in areas where there was no recycling available, since our District has over seventy-five towns in the region and only two offer curbside recycling. The District funded two county wide projects, one recycling trailer, and a pick up to move the recycling trailers that are placed in the area to have a place to pick up recyclables. The District has been working with three towns to start a curbside recycling program.

5 (b). What resource recovery goals does the district have for the upcoming fiscal year period and what actions does the district plan to take to achieve these goals? Please include the types of grant proposals that will be sought for the upcoming period to assist in meeting these goals.

Goal #1 - To continue the electronic collections. There are many valuable metals that are in these electronics that can be recycled and reused.

Goal #2 - To concentrate on paper, plastics, and aluminum that is easily recycled and transported to recycling centers, keeping them out of the landfills and conserving our natural resources.

Goal #3 - The District wants to focus on grant applications that would offer recycling in areas where there was no recycling available, since our District has over seventy-five towns in the region and only two offer curbside recycling.

Goal #4 - The District is working on starting a glass recycling program. This will be a tremendous benefit to the regions, but to get one started will take a lot of planning.

6. SUMMARIZE THE TYPES OF PROJECTS AND RESULTS DURING FISCAL YEAR (ADDITIONAL SHEETS MAY BE ATTACHED IF NEEDED.)

Name of Project Resulting in Tonnage Diversions from Landfills.	Cost of Project.	Number of Tons Diverted.	Average Cost Per Ton Diverted.
2009-05 - Harrison County Box Handler	\$11,153.00	Not Complete	Not Complete
B2009-06 - City of Bethany	\$4,000.00	2.6 Tons	\$1,538.46 / Ton
B2010-03 - Hope Haven Service Truck	\$15,000.00	Not Complete	Not Complete
B2010-04 - Region B Banned Items	\$ 31,912.15	Not Complete	Not Complete

Measurable outcomes achieved.

The City of Bethany's grant was a start up grant and the cost and will continue to decrease when you look at it over a longer term, which in turn would lower their cost per ton.

MO 780-1989 (06-08)

7. SUMMARIZE PROJECTS NOT RESULTING IN TONNAGE DIVERSION

Projects not resulting in tonnage diversions from landfills.	Cost of Project
B2011-01 District Operations	\$30,146.60
B2011-02 Plan Implementation	\$17,227.99

Measurable outcomes achieved for these projects.

The District has correlated banned item pick up in our 11 county region. The District has continued to schedule the textile trailer to each county that wants to participate and promote the recycling of the textiles. The District has continued to work with communities, city officials, schools, and businesses on their recycling efforts. The District has done recycling education in our area schools.

8. IDENTIFY SEPARATE STATISTICS FOR ITEMS BANNED FROM LANDFILLS			
List projects resulting in tonnage diversions from landfills.	List cost of project resulting in tonnage diversion.	Number of tons diverted from project.	Average cost per ton diverted.
B2010-04 - Region B Banned Items	\$31,912.15	Not Complete	Not Complete

9. IDENTIFY SEPARATE STATISTICS FOR ITEMS NOT BANNED FROM LANDFILLS			
List projects resulting in tonnage diversions from landfills.	List cost of project resulting in tonnage diversion.	Number of tons diverted from project.	Average cost per ton diverted.
B2009-05 - Harrison County Box Handling	\$11,153.00	Not Completed	Not Completed
B2009-06 - City of Bethany Recycling Center	\$ 4,000.00	2.6 Tons	\$1,538.46/ton
B2010-03 - Hope Haven Service Truck	\$15,000.00	Not Completed	Not Completed

10. Describe your district's grant proposal evaluation process.

Our District used the Executive Board to review and rate each grant proposal based on the 19 criteria according to 10 CSR 80 9.5 (2)(C)(3). The District has also added criteria #20 for timely reporting of the Quarterly Status Reports, Criteria #21 for projects based in our 11 county region.

The District also has set evaluation percentage that must be met to receive funding.
