

MISSOURI DEPARTMENT OF NATURAL RESOURCES  
SOLID WASTE MANAGEMENT PROGRAM  
**SOLID WASTE MANAGEMENT DISTRICT ANNUAL REPORT**

<b>1. REGION IDENTIFICATION (A-T)</b> E	<b>2. SOLID WASTE MANAGEMENT DISTRICT NAME</b> MARC SWMD	<b>3. FISCAL YEAR PERIOD:</b> FROM JULY 1, 2,011.( TO JUNE 30, 2,012.(
--	---	---

**GOALS AND ACCOMPLISHMENTS**

**4. (A) WHAT WASTE REDUCTION GOALS DID THE DISTRICT HAVE FOR THE MOST RECENTLY COMPLETED FISCAL YEAR AND WHAT ACTIONS DID THE DISTRICT TAKE TO ACHIEVE THESE GOALS?**

The MARC SWMD's purpose is to divert waste from the waste stream through waste reduction, reuse and recycling programs, with an ambitious goal of reducing the amount of waste going to landfills by 80 percent by 2023. To achieve the 80 percent waste diversion goal, the District has adopted multi-year strategies that encompass waste reduction, recycling, and resource recovery. Regional solid waste programs, grant funds, and technical assistance efforts help facilitate progress towards this regional goal.

See attached sheets (Attachment 1) for further discussion.

**4. (B) WHAT WASTE REDUCTION GOALS DOES THE DISTRICT HAVE FOR THE UPCOMING FISCAL YEAR? WHAT ACTIONS ARE PLANNED TO ACHIEVE THESE GOALS? INCLUDE THE TYPES OF GRANT PROPOSALS THAT HAVE BEEN IDENTIFIED TO ASSIST IN MEETING THESE GOALS.**

See above and attached sheets.

**5. (A) WHAT RECYCLING GOALS DID THE DISTRICT HAVE FOR THE MOST RECENTLY COMPLETED FISCAL YEAR AND WHAT ACTIONS DID THE DISTRICT TAKE TO ACHIEVE THESE GOALS?**

1. See above and attached sheets.

2.

5. (B) WHAT RECYCLING GOALS DOES THE DISTRICT HAVE FOR THE UPCOMING FISCAL YEAR? WHAT ACTIONS DOES THE DISTRICT PLAN TO ACHIEVE THESE GOALS? INCLUDE THE TYPES OF GRANT PROPOSALS THAT HAVE BEEN IDENTIFIED TO ASSIST IN MEETING THESE GOALS.

See above and attached sheets.

6. (A) WHAT RESOURCE RECOVERY GOALS DID THE DISTRICT HAVE FOR THE MOST RECENTLY COMPLETED FISCAL YEAR AND WHAT ACTIONS DID THE DISTRICT TAKE TO ACHIEVE THESE GOALS?

See above and attached sheets.

6. (B) WHAT RESOURCE RECOVERY GOALS DOES THE DISTRICT HAVE FOR THE UPCOMING FISCAL YEAR AND WHAT ACTIONS DOES THE DISTRICT PLAN TO ACHIEVE THESE GOALS? INCLUDE THE TYPES OF GRANT PROPOSALS THAT HAVE BEEN IDENTIFIED TO ASSIST IN MEETING THESE GOALS.

See above and attached sheets.

7. (A) LIST ALL PROJECTS OPEN DURING THE MOST RECENTLY COMPLETED FISCAL YEAR. (NOTE: THIS INCLUDES PROJECTS THAT MAY HAVE CLOSED DURING THE YEAR. ATTACH ADDITIONAL SHEETS IF NEEDED.)

PROJECT NUMBER	NAME OF PROJECT RESULTING IN TONNAGE DIVERSION FROM LANDFILL	COST OF PROJECT	NUMBER OF TONS DIVERTED	AVERAGE COST PER TON DIVERTED
E2011-001	Material Recovery & Transfer - Wood	\$35,729	1,315	\$27.17
E2011-002	Hallmark Cards - Zero Waste to Landfill	\$49,416	35.5	\$1,392
E2011-005	CASCO - Drop-Off Recycling	\$28,228	132	\$103
E2011-006	Wilderness Retreat - Creation Cleanup	\$1,699	1.7	\$999
E2011-007	Ripple Glass - Containers	\$125,000	977	\$128
E2011-008	BADSEED - Residential Composting	\$28,838	4.8	\$6,008
E2011-009	Habitat Restore - Equipment	\$17,571	1,027	\$17
E2011-010	Habitat Restore - Marketing	\$49,962	1,027	\$49
E2011-015	MARC SWMD - HHW Disposal	\$50,000	218	\$229
E2012-002	Friends of the City Market - Recycling	\$0	0	--
E2012-003	Rehabilitation Institute - Book Debinding	\$19,800	58	\$341
E2012-004	Kansas City Parks & Rec - Recycling	\$13,729	.38	\$13,729
E2012-005	City of Gladstone - Parks Recycling	\$0	.19	--
E2012-006	Truman Heritage Habitat - Restore	\$25,661	0	RECEIVED BY

NOV 28 2012

**7. (A) LIST ALL PROJECTS OPEN DURING THE MOST RECENTLY COMPLETED FISCAL YEAR. (NOTE: THIS INCLUDES PROJECTS THAT MAY HAVE CLOSED DURING THE YEAR. ATTACH ADDITIONAL SHEETS IF NEEDED.) -- Continued**

PROJECT NUMBER	NAME OF PROJECT RESULTING IN TONNAGE DIVERSION FROM LANDFILL	COST OF PROJECT	NUMBER OF TONS DIVERTED	AVERAGE COST PER TON DIVERTED
E2012-008	Clay County Parks - Recycling	\$0	.37	--
E2012-009	CASCO - Recycling	\$32,394	216	\$149
E2012-010	Central Industrial District - Recyc.	\$6,376	11	\$579
E2012-010 <sup>2</sup>	Revolve - Bike Recycling	\$0	4	--
E2012-013	Sugar Creek - Parks Recycling	\$0	0	--
E2012-015	Harvesters - Food Composting	\$0	99	--
E2012-017	Kansas City - Special Event Rcy.	\$0	1	--
E2012-018	Cass Co. Sustainability Com.	\$1,730	164	\$10
E2012-007	Nelson Atkins - Recycling	Declined		

**7. (B) WERE THERE ANY OTHER MEASURABLE OUTCOMES ACHIEVED BY THE ABOVE LISTED PROJECTS? LIST PROJECT NUMBER, TYPE OF OTHER MEASURABLE OUTCOME AND QUANTITY.**

PROJECT NUMBER	OUTCOME MEASURE	UNIT OF MEASURE (QUANTITY)	COST OF PROJECT	AVERAGE COST PER UNIT OF MEASURE

**8. SUMMARIZE PROJECTS THAT DID NOT RESULT IN TONNAGE DIVERSION**

PROJECT NUMBER	NAME OF PROJECT WITH OTHER THAN TONNAGE AS OUTCOME MEASURE	OUTCOME MEASURE	UNIT OF MEASURE (QUANTITY)	COST OF PROJECT	AVERAGE COST PER UNIT OF MEASURE
E2010-002	Reuse People of America - Training	# of Trainees	30	\$60,387	\$512
E2011-004	KCPT - Little Green Steps	PSAs	5	\$29,685	\$5,937
E2012-011	Blue Springs - Public Awareness	# Programs	3	\$0	--
E2012-014	Bridging the Gap - By-Product Synergy	# Meetings	4	\$1,792	\$448
E2012-016	Jackson County - Yardwaste Survey	# of surveys	1563	\$0	--

**9. IDENTIFY SEPARATELY PROJECTS THAT MANAGED ITEMS BANNED FROM LANDFILLS**

PROJECT NUMBER	NAME OF PROJECT	OUTCOME MEASURE	UNIT OF MEASURE (QUANTITY)	COST OF PROJECT	AVERAGE COST PER UNIT OF MEASURE
E2011-008	BADSEED - Residential Composting	Yardwaste (tons)	1.42	\$28,838	\$20,308
E2011-009	Habitat Restore - Equipment	Appliances (tons)	93.3	\$17,571	\$188
E2011-010	Habitat Restore - Marketing	Appliances (tons)	93.3	\$49,962	\$535

**11. DESCRIBE YOUR DISTRICT'S GRANT PROPOSAL EVALUATION PROCESS.**

The Grant Review Committee is comprised of seven volunteers:

- |   |  |
|---|--|
| Donna Utter (Chair), Ripple Glass                   | Marleen Leonce, Management Council       |
| Donna Koontz, Executive Board                       | Brian Alferman, Habitat ReStore          |
| Dan McGraw, Executive Board (past member/alternate) | Jim Twigg, Management Council Ex-Officio |
| Sue Mikula, Executive Board (alternate)             |  |

The grant proposal evaluation process is as follows:

1. Applicants are required to submit a brief pre-application indicating project scope and preliminary budget. The Grant Review Committee (GRC) reviews pre-applications and provides initial feedback on project relevancy and suggestions for improvement. District staff communicates GRC comments both verbally and via email to applicants. Applicants may decide at that point to submit a full application.
2. Applicants must submit an application by the district's posted due date and time. Staff reviews the applications received to determine completeness. At this time, staff also prepares a summary of past performance for applicants who have received prior grant funds. Staff forwards a completeness list and past performance evaluation to each GRC member.
2. The GRC members individually evaluate final proposals on criteria established by the district grant rule. GRC member scores are submitted to staff for ranking compilation.
3. The committee convenes a meeting to complete its selection process and agree upon a consensus-based score for each application received. At this meeting, recommendations for "full award," "partial award," "no award" are made based on the amount of funding available for the grant round. If necessary, contingencies for award are established at this meeting.
4. Recommendations resulting from this process are forwarded to the executive board for approval.

Staff assistance is offered throughout the process to ensure quality and complete applications.

## ATTACHMENT 1 - GOALS AND ACCOMPLISHMENTS

Narrative for items 4, 5, and 6.

The MARC SWMD's purpose is to divert waste from the waste stream through waste reduction, reuse and recycling programs, with an ambitious goal of reducing the amount of waste going to landfills by 80 percent by 2023. To achieve the 80 percent waste diversion goal, the District has adopted multi-year strategies that encompass **waste reduction, recycling, and resource recovery**. Regional solid waste programs, grant funds, and technical assistance efforts help facilitate progress towards this regional goal.

The MARC SWMD's Integrated Solid Waste Management Plan (District Plan), adopted in 1994, contains flexible strategies designed to enable local governments to address solid waste management objectives. The District Plan recommends implementation strategies to allow cities and counties to select the most appropriate option based on local needs. The plan recommends at a minimum for local governments to:

- Create a citizen solid waste and recycling committee
- Provide for the collection of residential recyclable materials
- Practice sound waste reduction and recycling activities in local government facilities
- Promote commercial waste reduction and recycling activities
- Support environmental education efforts

The MARC SWMD works cooperatively with public and private organizations to advocate the implementation of waste reduction and recycling guidelines established in the District Plan.

A core set of major objectives and long-term priorities was established in the year 2000:

### Major objectives:

- Improve local/regional participation and commitment
- Increase efforts in education and public awareness
- Provide more training and support to district members
- Continue efforts to meet the district's waste-reduction goal
- Elevate recycling as a local and regional priority
- Develop (and expand) markets for recycled materials

### Long-term priorities:

- Target educational efforts to schools and general public
- Support market development for recovered materials
- Expand policy and legislative initiatives
- Implement district integrated solid waste management plan

The District's 2009 Sustainable Solid Waste Management Study established incremental steps to achieve 40, 60 and 80 percent waste diversion over time. Initial steps to achieve 40 percent waste diversion by

2013 focus on increased access to residential and commercial services, more public awareness and participation, and better data collection to measure and monitor success. Subsequent goals of 60 and 80 percent build on the successes from improving basic services and the diversion of additional materials including organics and C&D materials.

To achieve the 80 percent waste diversion goal, the District has adopted multi-year strategies that encompass **waste reduction, recycling, and resource recovery** and are interwoven among the following key policy areas:

- **Regional Cooperation:** work together as a region on solid waste issues
- **Landfill Capacity:** new disposal facilities will be needed in the very near future
- **Waste Minimization and Diversion:** increase waste recovered for reuse, recycling and composting
- **Local Government Action:** advance programs and policies to promote the sound recovery and disposal of solid waste

To further implementation of the District Plan, the District has held annual strategic planning retreats since the year 2000. Outcomes of these annual sessions build on previous years' work and help to further the District's ongoing objectives and priorities. The annual strategic planning retreat held October 19, 2011 established the following goals for 2012:

- **Goal:** Continue to implement current actions to advance solid waste policy initiatives: regional cooperation; landfill capacity; waste minimization and diversion; and local government action
- **Goal:** Target grant funds to improve waste diversion infrastructure, services and programs: curbside/drop-off recycling services; public awareness; regional recycling facilities; market development for glass; regional organics programs; special venues recycling; food waste; and, zero waste
- **Goal:** Effectively communicate availability core solid waste services and emerging issues like landfill capacity and solid waste contracting to the public and policy makers.
- **Goal:** Develop and track measures of diversion and disposal to demonstrate progress toward goals and work to establish more aggressive goals long term

The following key strategies were developed to support the 2012 goals with a major emphasis on improving participation in and access to waste reduction services through outreach and education:

- **Key Strategy:** Conduct infrastructure and planning initiatives to support the interim 40/2013 waste diversion goal
- **Key Strategy:** Expand intergovernmental partnerships & public and private partnerships
- **Key Strategy:** Promote understanding of issues and implement strategies to effectively manage and reduce waste
- **Key Strategy:** Communicate with local and state officials about solid waste issues and efforts
- **Key Strategy:** Use performance benchmarks or grade card to showcase involvement and participation

RECEIVED BY

NOV 28 2012

SWMP OPERATIONS

- **Key Strategy:** Incorporate how-to's into residential, commercial and school-age public education and outreach
- **Key Strategy:** Support local governments with best practices, benchmarks, policies and technical assistance to enhance and expand accessibility of core solid waste services

Below is a statement of each goal along indicating major accomplishments (Table 1). Progress on individual strategies tied to these goals follows (Table 2).

SWMP OPERATIONS

**TABLE 1. GOALS AND ACCOMPLISHMENTS**

FY11/12 PRIMARY GOALS	MAJOR ACCOMPLISHMENTS
<p><b>Continue to implement current actions to advance solid waste policy initiatives:</b></p> <ul style="list-style-type: none"> <li>• regional cooperation</li> <li>• landfill capacity</li> <li>• waste minimization and diversion</li> <li>• local government action</li> </ul>	<p>The District to communicate the core objective for the 40/2013 goal which is improving access and participation as part of the sustainable solid waste management strategy. The 2010 Recycling Challenge, <i>Taking it to the Streets: Improving Residential Services</i>, continued in FY11/12 as an ongoing campaign for local governments with 17 participants. A contracting workshop held in September 2011 featured local governments who currently contract or are exploring contracting as a means to improve access and participation and increase waste diversion. The October 2011 Strategic Planning Session focused on:</p> <ul style="list-style-type: none"> <li>• The creation of benchmarks and community ranking systems on a spectrum of solid waste services.</li> <li>• An assessment of diversion to monitor progress toward the 2013 goal.</li> </ul>
<p><b>Target grant funds to improve waste diversion infrastructure, services and programs:</b></p> <ul style="list-style-type: none"> <li>• curbside/drop-off recycling</li> <li>• public awareness</li> <li>• regional recycling facilities</li> <li>• glass market development</li> <li>• regional organics programs</li> <li>• special venues recycling</li> <li>• food waste</li> <li>• zero waste</li> </ul>	<p>The District received 33 grant applications for the FY12 grant call. Seventeen projects were funded totaling \$383,358. Of these, five are parks and special event recycling projects, three grants are focused on education, and two address food waste. Other funded projects include a book recycling program and a Habitat ReStore in Independence.</p> <p>The Solid Waste Advisory Committee met in May 2012 to review the existing grant targets. The committee recommended keeping the current priorities for the FY12 grant call with the addition of a priority for construction and demolition waste.</p> <p>FY13 pre-applications are due in August.</p>
<p><b>Effectively communicate availability core solid waste services and emerging issues like landfill capacity and solid waste contracting to the public and policy makers.</b></p>	<p>District staff continues to represent the district to key policy makers through involvement with the Eastern Jackson County Betterment Council, and the planning efforts of Kansas City and Lee’s Summit. In December, the District held a panel discussion on local government’s successful policies and actions that can serve as potential benchmarks for greater waste reduction.</p> <p>The District continues to engage the management council, through its bi-monthly meetings, and advisory committee in policy-making and best practice strategies. The focus continues on basic residential services (recycling, yard waste, special wastes), waste reduction and green purchasing.</p> <p>The RecycleSpot website continues to be well visited and averages 5,000 visitors per month.</p>
<p><b>Develop and track measures of diversion and disposal to demonstrate progress toward goals and work to establish more aggressive goals long term</b></p>	<p>The District has discussed potential benchmarks to measure progress towards the District’s waste diversion goals to include measures, services, and policies to support diversion and sustainability measures. A survey of local governments was developed to begin the assessment of local programs and benchmarks. It is anticipated that this work will continue into FY13.</p> <p>There was also discussion on establishing a District calculation methodology to assess the District’s current waste diversion rate. It is also anticipated that this work will continue into FY13.</p>

**TABLE 2. STATUS OF MULTI-YEAR STRATEGIES**

MULTI-YEAR STRATEGIES	CURRENT STATUS
<p><b>Conduct a second phase in long-range infrastructure and program planning targeting an incremental approach to reach 80 percent diversion region-wide by 2023 starting with 40 percent by 2013</b></p> <ul style="list-style-type: none"> <li>• Determine the diversion infrastructure needs to expand processing and composting of materials derived from residential, commercial and C&amp;D sectors</li> <li>• Determine how to move to volume-based rates and mandate recycling and composting throughout district</li> <li>• Determine how to fund programs and infrastructure long term</li> <li>• Develop strategies to resolve solid waste issues using a multi-benefit approach, i.e. green jobs</li> <li>• Reach consensus on policies to guide future strategies, i.e., highest/best use, total environmental impact</li> </ul>	<p>The District promoted three policy strategies to be pursued that are intended to help communities achieve 40 percent waste diversion by 2023. These strategies, and the importance of each to reaching the district goals include:</p> <ul style="list-style-type: none"> <li>• Ordinances – Elements can include: service provider requirements: availability of recycling, materials to be accepted, types of containers, frequency, licenses, reporting, recycling plans for street fair permits. If enforced, ordinances can be very effective for increasing waste diversion in a community.</li> <li>• Licenses – Provide the ability to control solid waste business practices in a community by establishing requirements on facilities/processors used by the hauler, truck safety, hauler services offered, and reporting and education.</li> <li>• Citizen advisory committee - Community members are much more likely to respect and follow local ordinances if they are involved in an open process for developing and adopting them.</li> </ul> <p>Future program planning is targeted to focus on benchmarks to measure waste diversion.</p>
<p><b>Expand intergovernmental partnerships &amp; public and private partnerships to promote understanding of issues and implement strategies to effectively manage and reduce waste</b></p>	<p>The district is working with local governments to improve access to core solid waste services as part of the initial objective to reach the 40/2013 goal.</p> <p>Landfill capacity has stabilized for the immediate future. The Lee’s Summit landfill is still anticipated to close in the 2016-2018 timeframe.</p>
<p><b>Communicate with local and state officials about solid waste issues and efforts; use performance benchmarks or grade card to showcase involvement and participation</b></p>	<p>The Recycling Challenge will continue until 2013. District staff conducted outreach assessments to help local government staff improve its communications to residents, businesses and staff on available services. RecycleSpot is also an important tool for both public education and solid waste service information requiring continued improvements and staff time. A discussion about local government benchmarks continues with work anticipated for FY13.</p>
<p><b>Incorporate the how-to component into residential, commercial and school-age public education and outreach</b></p> <ul style="list-style-type: none"> <li>• Continue to increase public participation and knowledge about recycling services</li> <li>• Build and expand efforts to catalyze comprehensive school programs</li> </ul>	<p>The District continues to support educational activities through district staff coordination of the Kansas City Environmental Education Network (KCEEN), Green Schools and RecycleSpot promotion. A media campaign was conducted for America Recycles Day in November 2011.</p>
<p><b>Support the work of local governments with best practices, benchmarks, policy development, and technical assistance to enhance and expand accessibility of core services (recycling, yard waste, HHW, bulky items, cleanup days) to all residents</b></p>	<p>The District launched a Recycling Networking Series, in which the quarterly lunches include feature speakers and provide an opportunity for businesses and governments to network with service providers. In June, a new planning brief series was begun to focus on strengthening recycling ordinances, hauler licensing, and citizen solid waste advisory committees.</p> <p>Several meetings were held to discuss District benchmarks. Work on identifying and measuring benchmarks, such as procurement policies, public education efforts, and accessibility to curbside recycling services is anticipated to continue into FY13.</p>
