# Annual Report for the South Central Solid Waste Management District for FY 2011 from July 1, 2010 to June 30, 2011

1. District Name: **South Central Solid Waste Management District - REGION P**
2. Fiscal Year Period: **From July 1, (2010) to June 30, (2011).**
3. The District Full Council includes the Executive Board, Representatives from the member cities and counties and the Advisory Board. Full Council meetings serve as planning sessions and information sharing workshops with the advisory board. The Full Council of the South Central Solid Waste Management District met in January 3, 2010 to start the planning process for FY2011. The Full Council met on June 3, 2010 to approve up the budget for FY 2011 administration and Plan Implementation. The Full Council updated the policies for the FY2011 grant cycle and the District goals for FY 2011 were set at that meeting. Copies of the minutes from all of the district meetings are included in the section with the information on Board and Council members.

## **For Questions 3a, 4a, and 5a:**

### **FY 2011 GOALS for Waste, Recycling and Resource Recovery:**

1. It was decided that for FY 2011 the District Grant Program Criteria would stay the same as in FY2010.
2. Many of the current recycling programs will face financial problems in the coming year due to increased fuel costs. The District will continue to support the recycling programs that are operating in the district. We will provide funds for equipment and operations including wages for employees.
3. **The Solid Waste Law allows for Counties of the District to contract with the District for Solid Waste Services.** The District will again apply for grants on behalf of the seven counties of the District for: Illegal Dumping, HHW collections, Electronics collections that will include collecting and recycling/disposing of computers from businesses, public entities and schools, and scrap tire amnesty days. These district-wide projects are a cooperative effort between the cities and counties and the district that has proven to be most successful.
4. **For FY 2011 the District will use grant funds to help sub-grantees with projects. Priority will be given to projects as follows:**
  1. Collection/Processing - equipment
  - Collection/Processing - operation
  2. Household Hazardous Waste
  3. Illegal Dumping
  4. Electronics Collections
  5. Compost Equipment
  6. Waste Reduction Education
  7. Market Development
  - The District will accept grant applications on a quarterly basis. This will encourage better projects. Each complete grant application will be evaluated in the calendar quarter in which it is submitted.
  - There will be a \$30,000 limit on the amount of grant funds available for any one project of a city, or county.

RECEIVED BY

OCT 21 2011

SWMP OPERATIONS

- A city or county project can receive a maximum of \$30,000 in a one-year period. An entity can request a two (2) year grant timeline with the required special pre- approval from the Executive Board.
- Collection/Processing: operating costs requested for labor/wages will remain the same as in past years. The District will pay up to a maximum of \$7.50/hour or minimum wage, up to 2080 hours /year - \$15,600. Any entity requesting help with labor costs will have to pay all other employee costs.
- No match will be required for grant projects. No extra points will be given to applicants that provide match.
- There will be a minimum amount of points a grant application must get before it will qualify for funding. The minimum is 100 for FY 2011.

### **Questions 3b, 4b, and 5b:**

#### **FY 2012 GOALS for Waste, Recycling and Resource Recovery**

**The Full Council {the Executive Board, Representatives from the member cities and counties and the Advisory Board} of the South Central Solid Waste Management District met on January 27, 2011 to start the planning process for FY2012. Council meetings serve as planning sessions and information sharing workshops with the advisory board. At that meeting, the Council became aware that District grant funding would again be less than anticipated. Adjustments were made to the District Administration and Plan Implementation grants to reflect the decreased funding.**

The Full Council met on June 2, 2011 to approve up the budget for FY 2012 administration and Plan Implementation. The Full Council updated the policies for the FY2012 grant cycle and the District goals for FY 2012 were set at that meeting. Copies of the minutes from all of the district meetings are included in the section with the information on Board and Council members

#### **FY 2012 GOALS:**

**The main goal for FY 2012 is to do what we can to maintain the status quo for recycling and waste reduction in the District.**

1. The start of the FY 2012 Grant cycle is July 1, 2011
2. It was decided that for FY2012 the District Grant Program Criteria would stay the same as in FY2011. A copy of the FY 2012 grant criteria is included with this report.
3. The District will continue to support the publicly owned recycling programs that are operating in the district. These programs include: In Douglas County- Do Co, Inc.; In Howell County - City of Mountain View Recycling Program, The City of West Plains Recycling Program and the City of Willow Springs Recycling Program; In Oregon County- Oregon County Recycling Program (OCRA); In Ozark County – the Ozark County recycling program; In Shannon County – The Shannon County Recycling Program which is managed through the District; and In Texas County - The Texas County Recycling Program which will be managed by Texas County Recycling LLC a newly formed private corporation.
4. We will provide funds for equipment and operations – including wages for workers at the recycling centers.

RECEIVED BY

OCT 21 2011

SWMP OPERATIONS

5. The District will apply for grants on behalf of the seven counties of the District for: HHW collections, Electronics collections that will include a program for collecting and recycling/disposing of computers from several businesses such as banks and school, Scrap tire amnesty days, and the Illegal Dumping program. Grants for these programs will be applied for at the same or lower funding levels as FY2011.
6. Technical Assistance funds will be used to provide training for district personnel in several areas, including how to remove Freon from old appliances, HHW training and continuing education.

## GRANT PROJECT INFORMATION

### FY 2010 District Grants Information

For FY2010 the district's share of the Solid Waste fund from July 1, 2009 to June 30, 2010.

\$ 60,902.00	1 <sup>st</sup> quarter 2010 funds (7/1/2009-9/30/2009)
\$ 62,870.00	2 <sup>nd</sup> quarter 2010 funds (10/1/2009-12/31/2009)
\$ 53,233.00	3 <sup>rd</sup> quarter 2010 funds (1/1/2010-3/31/2010)
\$ 82,816.00	4 <sup>th</sup> quarter 2010 funds (4/1/2010-6/30/2010)
<u>\$ 259,821.00</u>	

### FY 2011 District Grants Information

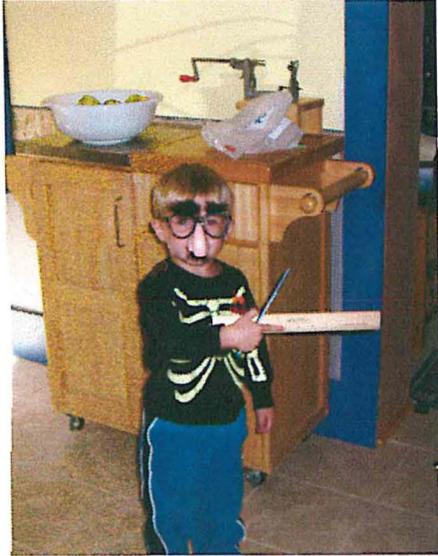

For fiscal year 2011 the district's share of the Solid Waste fund from July 1, 2010 to June 30, 2011.

\$ 58,153.00	1 <sup>st</sup> quarter 2011 funds (7/1/2010-9/30/2010)
\$ 59,144.00	2 <sup>nd</sup> quarter 2011 funds (10/1/2010-12/31/2010)
\$ 49,428.00	3 <sup>rd</sup> quarter 2011 funds (1/1/2011-3/31/2011)
\$ 72,566.00	4 <sup>th</sup> quarter 2011 funds (4/1/2011-6/30/2011)
<u>\$ 239,291.00</u>	

It is the policy of the District to support the recycling programs in the district. Trash collection and Recycling services are available throughout the district. It is not all curbside collection, but we are striving to make the services as convenient as possible. All of the publicly owned recycling centers have received multiple grants from the district. It is expected that this practice will continue. The District has provided funding to several privately owned programs as well.

# MEASURING SUCCESS

## 6. Projects in FY 2011 that resulted in tonnage diversions from Landfills

### 2009-09 and 2010-11 Shannon County Recycling Program – \$11,800 grant wages and expenses for the program.

The Shannon County recycling program has been in operation since 1995. Sometimes it can support itself with funds from the county, bag sales, and user fees. Other times it needs help from the district to keep going. During this grant period, the funds from the county and bag sales allowed a 1-year program to keep going for over a year and a half. During that time, bag sales increased and more users started on the program. The county recycling program brings in a large amount of materials to the Mountain View Center. We consider it a success because it makes recycling available for many people throughout Shannon County.

In the spring of 2009, a new center opened in Birch Tree, Shannon County, MO. All recyclable materials went to that center but it was unable to sustain itself and closed in March 2011. Dale Atchley to owner of Ozark Green reported 120 tons of materials were recycled through his center for Shannon for district grant project 2009-09. The District and the Shannon County Commission resumed management of the project in March 2011, so the program could continue. About 50 Tons of materials have been collected for recycling through this project so far for 2010-11. The materials are counted with the amounts from the Mountain View Recycling Center, which receives all of the revenue from the sale of materials. The county contributes \$100 per month toward the cost of fuel for the truck to do the collections.

**2010-03 HHW Collections - \$30,000.00 plus an additional \$5,000 from interest added in May 2010 to cover any additional costs that may occur. A total of \$34,496.00 was used.** Though the disposal of Household Hazardous waste in landfills in Missouri is an allowable activity, the district holds collections to decrease the amount of these materials that are disposed of municipal solid waste landfills. About 40 T of waste were transported for disposal as hazardous waste. The program was funded for \$35,000.00 for 2010.

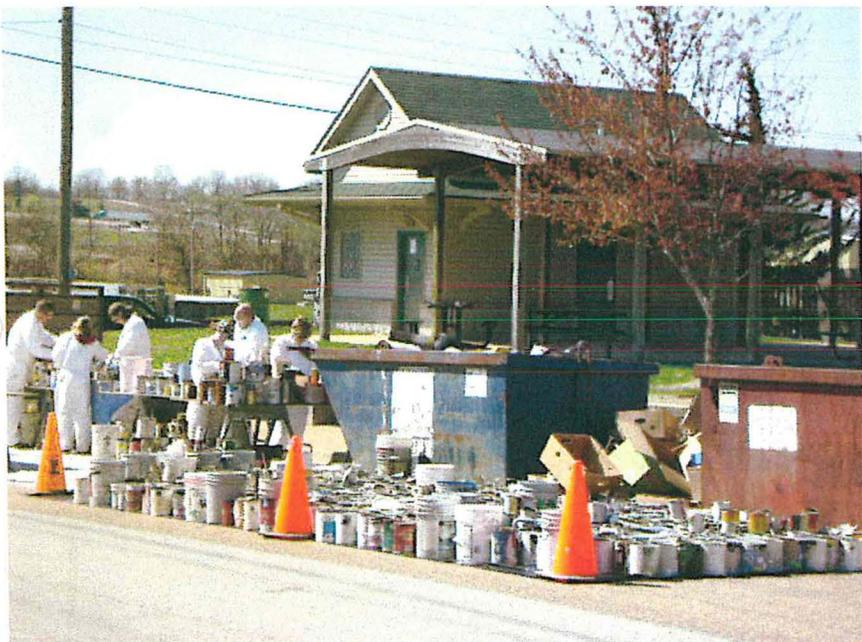

RECEIVED BY

OCT 21 2011

SWMP OPERATIONS

In the spring of 2010, 8 Collections were held. The collection schedule is included. The participation rate was down slightly for 2010 – 719 households attended the spring collections, or about 1.5% of the households in the district. Three more collections were held in the fall with an additional 207 households participating. The cost per ton for material disposal is estimated at \$862.00/ton. However, the more important cost of only \$37 per household is a much better measure.

**2011-03 HHW Collections** - The disposal of Household Hazardous waste in landfills in Missouri is an allowable activity. Diversion of these materials from municipal solid waste landfills and reduction of the toxicity of materials that are land filled is the goal that the solid waste district hopes to achieve through the continuance of this program. Approximately 32 T. of waste was transported for disposal as hazardous waste. Nine collections were held in the Spring of 2011. The collection schedule is included. Six hundred sixty five households participated. The weather was a factor in the decreased attendance. In 2011, this program also included a "Drug Take Back Day". Over 227 pounds of old pharmaceuticals were collected at eight sites throughout the district. The cost for this project remains between \$600 and \$1,000 per ton and right at \$40 per participating household.

RECEIVED BY  
OCT 21 2011  
SWMP OPERATIONS

**2010-04 - Electronics Collections-** Approximately 150 T of materials were collected in 2010. We do not weigh all of the materials. The 2010 program was funded for \$30,000.00 originally than another \$5,000 from interest was requested to cover any unexpected overages. For the 2010 collection program, bids were requested for collection and disposal. The district can do the collections with paid workers much cheaper than by hiring any of the companies who submitted bids. The electronics collections and the HHW collections are held at the same time and place.

In 2010, the district paid to dispose of unwanted CRTs (bad monitors). A new company opened in Birch Tree, one of our member cities, and we use this facility for disposal for all of the collections that are closer to Birch Tree. We still use Computer Recycling Center in Springfield for collections that are closer to Springfield. In 2010, the district held 14 collections for electronics in which 1050 households participated. Computer disposal was provided to 3 banks, 4 courthouses/city halls, at least 14 businesses and 6 schools. The cost for electronics collections in 2010 was approximately \$230.00 per ton.

**2011 -04 - Electronics Collections-** Approximately 100 T of materials were collected in the Spring of 2010. The 2010 program was funded for \$30,000.00. During the bidding process, some of the recyclers said they could do the recycling and reuse of computers for no additional fees. The cost for this program for 2011 has been for the transportation to the recycler and for labor to do the collections. Electronics were collected with HHW, which keeps the cost of both projects lower.

RECEIVED BY  
OCT 21 2011  
SWMP OPERATIONS

**2010-08: Texas County Recycling funded for \$17,920.00.** This program started as collaboration between the cities of Licking and Houston and the South Central Correction Center. When the SCCC had to quit doing the collections, the Texas County Commission and the district helped by funding the cost of collecting cardboard from businesses and taking the cardboard to the SCCC for processing. Later the 2010 program was managed by Ozark Green a not-for-profit who baled the cardboard that was collected rather than taking it to the prison. Dale Atchley, the owner of Ozark Green, reported that Ozark Green collected and processed about 20 tons of cardboard each month, which made the average cost per ton diverted about \$90.

**2011-09: Texas County Recycling funded for \$17,500.00.** This grant provided funds for the cardboard collection program to continue and expand. Dale Atchley had some personal and business problems and relinquished control of the program back to the district in March of 2011. The program continues to collect and process about 20 to 25 tons of cardboard each month lowering the cost to about \$78 per ton.

### **Projects not Resulting in tonnage Diversion:**

**2010-01 District Operations funded at \$82,217.00**

**2010-02: District Plan Implementation – Technical Assistance funded at \$41,500.00**

**2011-01 District Operations funded at \$81,500.00**

**2011-02 District Plan Implementation – Technical Assistance funded at \$41,500.00**

**2010-07 – Partial wages for a worker at the Oregon County Recycling Center -\$7,155**

This District grant pays \$7 per hour for a worker at the Center. The Center is in financial trouble because the county is in financial trouble and had to cut back on the amount they can pay to the center for services. This grant helps pay wages for one worker at the center and allows the center to remain open and fully staffed. The center processes about 500 tons of materials for recycling each year.

**2010-10 – Wages for a worker at the Ozark County Recycling Center -\$15,600.00**

The District pays the first \$7.50 for a worker at the Center. The County is in financial trouble and needs help with paying the expenses of having a recycling center in the county. The district grant to help pay wages paid at the center allows the county to keep the center open and fully staffed. The center processes about 500 tons of materials for recycling each year.

**2010-11 Do Co, Inc. Wages for a worker for up to 1 year** The District grant pays up to \$7.50 per hour of the wages of a worker at the center for a total of **\$15,600.00**. The center needs help with paying the wages of a full time person to do the recycling program. The district has been helping with wages at the center for several years. The center processes about 350 Tons of materials each year. This project provide labor for the processing but not direct tonnage diversion.

**2011-10 – Wages for a worker at the Ozark County Recycling Center -\$15,600.00**

This District grant pays the first \$7.50 per hour for a worker at the Center.  
The project started May 1, 2011 - Helps retains 1 FTE position.

**2011-12 Do Co, Inc. Wages for a worker for up to 1 year- \$15,600.00-**

This District grant pays the first \$7.50 per hour for a worker at the Center. The project started May 1, 2011. Helps retain 1 FTE position.

SWMP OPERATIONS

## 7. Projects for items Banned from Landfills

**2010-05 Waste Tire Amnesty Days** – approximately 18,138.9 tire equivalents were collected weighing about 181 T. Waste Tire Amnesty Days were funded at \$30,000 for 2010. This is about **\$165 /Ton**. A list of the collections and costs is included. The cost for tire collections increased due to the rising cost of fuel.

**2011-05 Waste Tire Amnesty Days** – \$24,000.00. Approximately 9,120 tires were collected by the end of FY 2010, weighing about 91 T. Waste Tire Amnesty Days were funded at \$24,000 for 2011, approximately \$16,000 has been spent by the end of FY 2011. A list of the collections and costs is included. The project is still open. When all of tire amnesties have taken place, a cost per ton can be calculated.

## 9. Items not banned from landfill

**2010-06 Illegal Dumping and 2011-06 Illegal Dumping** - In an effort to reduce illegal dumping the district held several rural collections for bulky rubbish. The District also helped cities with the cost of special cleanup if the city allowed rural residents to bring wastes into the city collection. This program actually increased the amount of waste that is taken to the landfill, but it keeps it out of the woodland, ditches and waterways. Each year for the last several, the district has funded the identification and clean up of illegal dumpsite at \$25,000.00. There were 2 large cleanups funded from 2011-06. The Delp Road Clean up in Howell County and the Pugh Site in Texas County.

2011 Grant Evaluation Criteria

Project Name:

**Completeness of Application: Only Complete Applications are eligible for Funding**

Application Applicant Information form is complete, signed, and dated. The package includes a Complete Executive Summary, Budget, Work-plan and timeline.

**YES - Continue with evaluation**

**NO - Insufficient data provided - Return Application -as not eligible for funding this quarter**

**II. Conformance with District Waste Reduction Efforts- (chose only one category)**

**District Project Hierarchy for 2011: Category Type of Project**

Collection / Processing	25 points
Household Hazardous Waste	25 points
Illegal Dumping	25 points
Electronics Collections	20 points
Waste reduction Information	5 points
Compost Equipment	5 points
Market Development	5 points
Other -	0 points

\_\_\_\_\_ POINTS

**2. District - Targeted Grant Projects**

**Materials List ( chose only one)**

- a. The project includes recycling/reuse of glass, Electronics, or HHW 10 points
- b. The project includes recycling of Secondary Fibers, glass, plastics, yard waste, food waste, or other materials on the Targeted Materials list 5 points
- c. The project reduces or recycles materials not on the Targeted Materials list 0 points

\_\_\_\_\_ POINTS

**III. Project Support ( 5 points each - up to 10 points total is possible)**

Proposal shows support from local governing body where project will take place

\_\_\_\_\_ POINTS

**Cooperative Efforts:-**

Project involves a partnership between two or more communities, cities, counties, and/ or other public sector entities or public private enterprises.

\_\_\_\_\_ POINTS

RECEIVED BY

OCT 21 2011

SWMP OPERATIONS

2011 Grant Evaluation Criteria

**IV. CONSIDERATIONS: Up to 5 POINTS EACH**

- \_\_\_\_\_ Contributes to Community based Economic Development – creates or retains jobs
- \_\_\_\_\_ Project is able to comply with Federal, State and Local Requirements.
- \_\_\_\_\_ Transferability of results- information can be easily shared with others organizations
- \_\_\_\_\_ Need: Applicant has established a need for the project in conjunction with the solid waste management programs of the District
- \_\_\_\_\_ Grant Management: The managerial and technical ability of applicant, is described
- \_\_\_\_\_ Timelines: Applicant able to implement the project in a timely manner.
- \_\_\_\_\_ Technical Feasibility: The technology is available to implement this project.
- \_\_\_\_\_ Availability of Markets, Feedstock, and personnel has been established
- \_\_\_\_\_ Cost Estimates: Cost estimates for equipment, labor, equipment, etc. are reasonable.
- \_\_\_\_\_ Appropriate documentation for Cost estimates were provided
- \_\_\_\_\_ Financial Planning; Applicant can project a date when the project will be self-sustaining
- \_\_\_\_\_ Marketing Effectiveness : Marketing strategy is described?
- \_\_\_\_\_ Evaluation Procedures are described both quantitatively and qualitatively
- \_\_\_\_\_ Impact statement is included and sufficiently describes situation of project .

\_\_\_\_\_ POINTS

**V. Stimulus Points**

**First Time Grant Applicant: 5 points:**

If Applicant has never received grants funds from the South Central Solid Waste Management District

**Repeat Grant Applicant: -0 points:**

If Applicant has consistently received grants funds from the South Central Solid Waste Management District

**2011 Target Projects: Project creates or retains at least 1 job: 20 POINTS**

**Applicant is a Member City or County: 20 points**

**Total Stimulus Points \_\_\_\_\_ POINTS**
