SOLID WASTE MANAGEMENT PROGRAM  
**SOLID WASTE MANAGEMENT DISTRICT ANNUAL REPORT**

1. SOLID WASTE MANAGEMENT DISTRICT St Louis-Jefferson Solid Waste Management District	2. FISCAL YEAR PERIOD: FROM JULY 1, 2,010. TO JUNE 30, 2,011.0
--	---

**GOALS AND ACCOMPLISHMENTS**

3 (a). What waste goals did the district have for the fiscal year period and what actions did the district take to achieve these goals?

A primary District goal is to reduce the amount of waste being generated for disposal wherever possible in our region. The District goals include reducing waste, maximizing recycling, expanding composting, supporting ongoing education in schools, businesses and communities, establishing an ongoing regional household hazardous waste management program, and developing additional end-use markets from recovered materials. The District strives to maximize the economic impact of the recycling industry which provides jobs, tax revenues and other economic benefits. The District strives to maximize the environmental benefits from the recycling industry, including conserving natural resources, saving energy, reducing pollution, and reducing greenhouse gas emissions. The District implemented its annual grant program in 2011 to encourage and support projects that reduce, reuse, and recycle waste. The District also provides ongoing information, education, and technical assistance to enhance the recycling industry in the St Louis region. A copy of the District's most recent annual report is attached to these forms. Please keep it attached.

3 (b). What waste goals does the district have for the upcoming fiscal period and what actions does the district plan to take to achieve these goals. Please include the types of grant proposals that will be sought for the upcoming period to assist in meeting these goals.

District goals for 2012 include those items discussed in 3(a). The District actively solicits as many grant proposals as possible to maximize the ability to work on all subject areas, and leverage as much additional funding as possible. The District receives requests for assistance that are several times greater than the amount of funding available. The District will also continue to provide information, education, and technical assistance to the maximum extent possible. The District goal remains to reduce the amount of waste being generated for disposal wherever possible. Waste reduction projects, including education projects, are eligible projects for the District Grant Program.

4 (b). What recycling goals does the district have for the upcoming fiscal year period and what actions does the district plan to take to achieve these goals? Please include the types of grant proposals that will be sought for the upcoming period to assist in meeting these goals.

District priorities will continue to expand on the areas mentioned above. It has become apparent that additional emphasis on developing new and expanded local end-use markets is important for ensuring sustainability and growth of the recycling industry, and maximizing the economic potential of one of Missouri's primary green industries.

5 (a). What resource recovery goals did the district have for the fiscal year period and what actions did the district take to achieve these goals?

The District is supportive of resource recovery, but does not have adequate resources to make any significant contributions to this effort. A legislative committee did assess the energy potential of resource recovery and concluded that it would not be able to make any significant contribution to base load generation. Resource recovery programs are in a good position to tap other funds in an effort to expand their collection efficiency and utilization. Given the extremely dangerous nature of these gases, minimizing generation and maximizing recovery is a the most prudent course of action.

5 (b). What resource recovery goals does the district have for the upcoming fiscal year period and what actions does the district plan to take to achieve these goals? Please include the types of grant proposals that will be sought for the upcoming period to assist in meeting these goals.

Resource recovery programs are an eligible grant activity as a potential application for grants. Limited resources and lower priorities continue to be a hindrance for funding these types of projects.
