

Groundwater flow direction

As-permitted phase development plan & groundwater monitoring network

- Original monitoring well

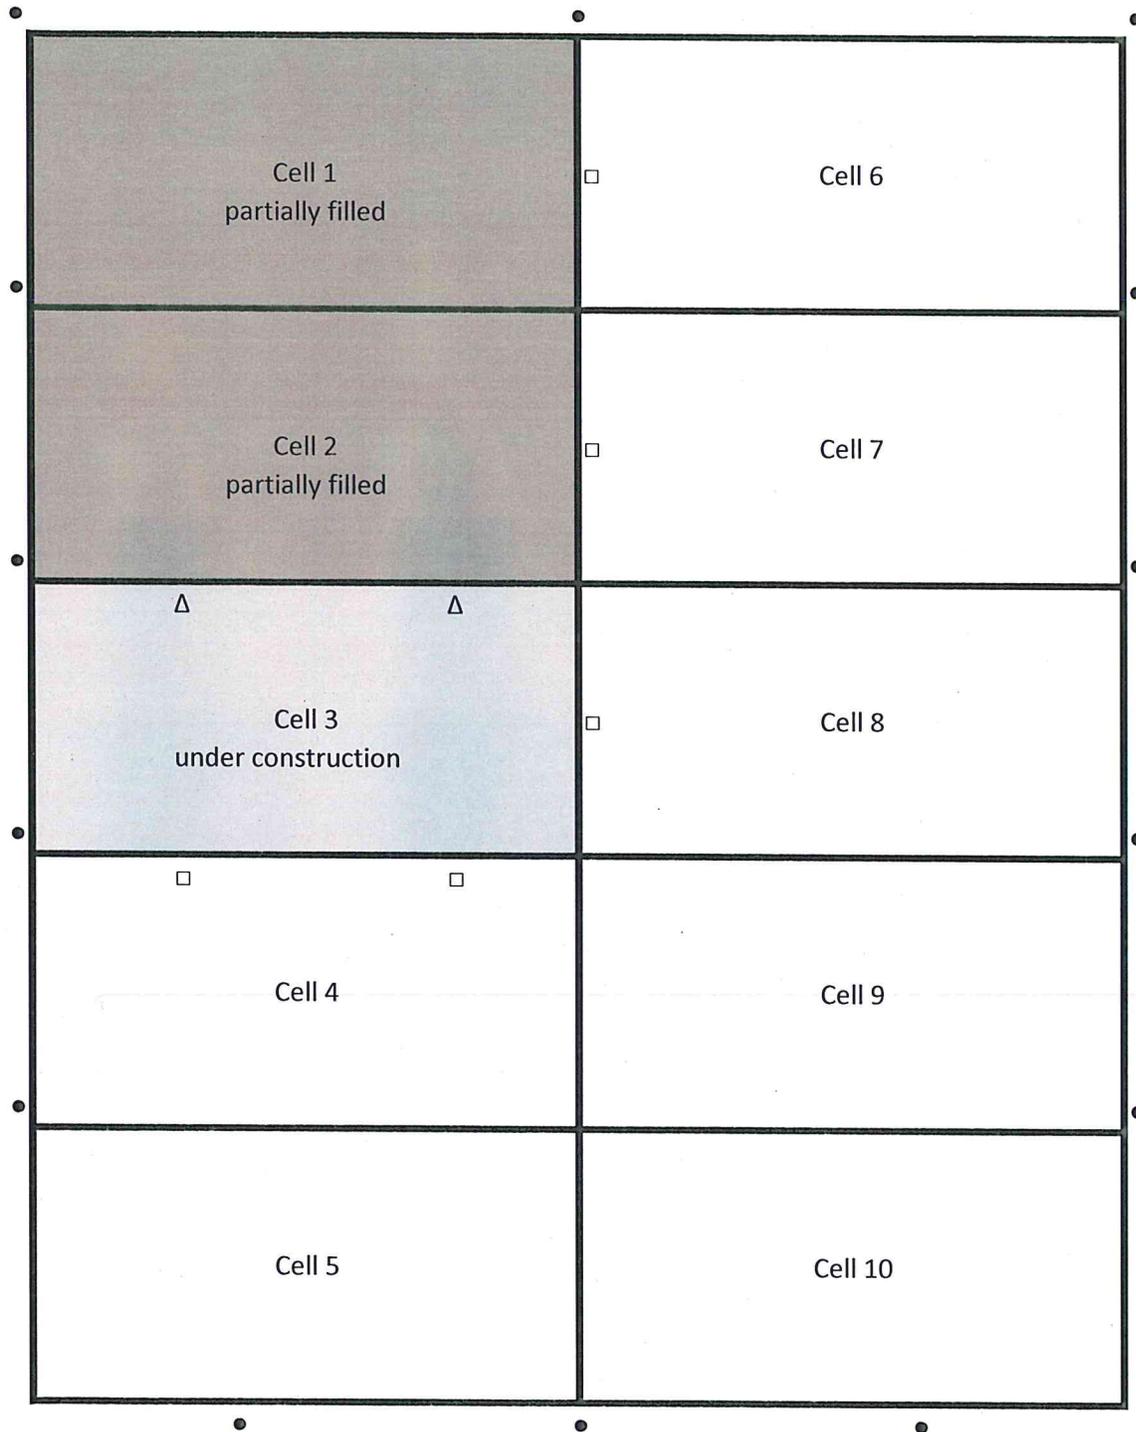

Groundwater flow direction

Current status of development  
Cell 1 partially filled; cell 2 under construction

- Original monitoring well
- New monitoring well at waste boundary

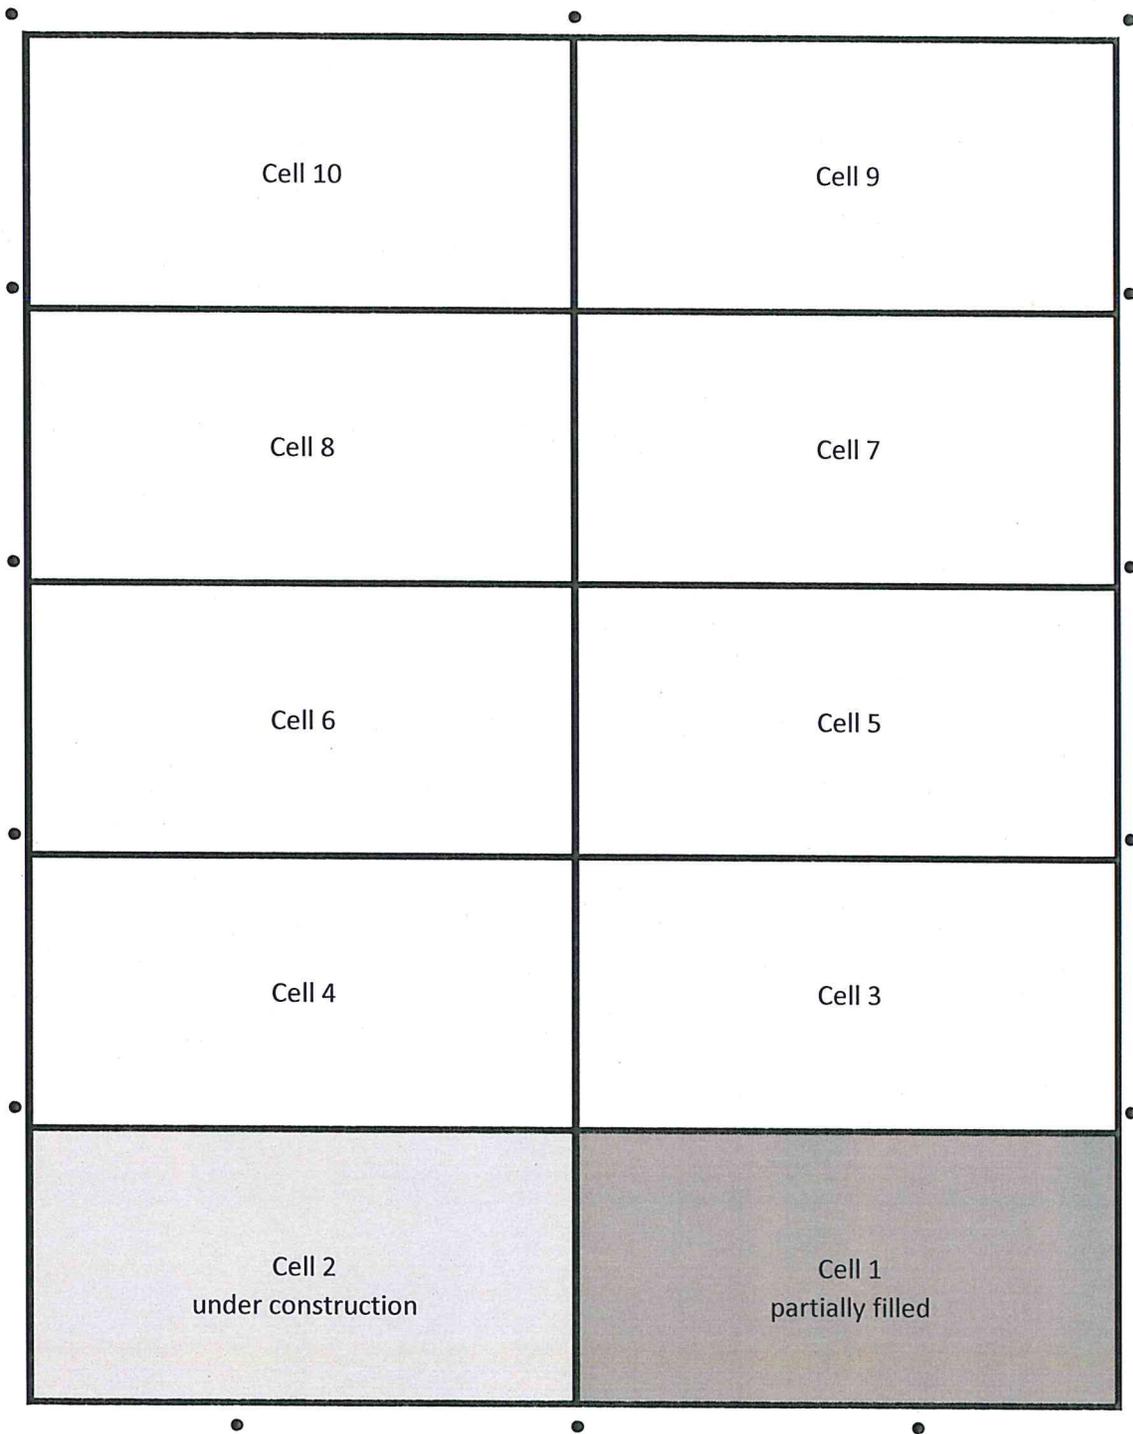

Groundwater flow direction

Future landfill development  
Cells 1 and 2 partially filled; cell 3 under construction

- Original monitoring well
- New monitoring well at waste boundary
- △ Monitoring well to be abandoned

Groundwater flow direction

Alternate phase development plan &  
groundwater monitoring network

No need to install and abandon monitoring wells as landfill development progresses
