

MISSOURI SWMD DISTRICT ANNUAL REPORT

FISCAL PERIOD: JULY 1ST - (PREVIOUS YEAR) TO JUNE 30TH - (CURRENT YEAR) | 2019

District N - Southwest Missouri Solid Waste Management District

SOLID WASTE MANAGEMENT DISTRICT ANNUAL REPORT

1 (a). What waste goals did the district have for the fiscal year period and what actions did the districts take to achieve these goals?

As stated in previous reports, the primary goal of the District is to support efforts to divert material from going into landfills through funding local reuse and recycling efforts and to educate the public about solid waste management. The District will continue to help provide grants targeted to reducing, reusing, or recycling solid waste, and for recycling education. The District goals help to implement the need to reduce waste and recycle items with the emphasis being placed on the High Priority List on the Target Materials and Project List. During the District's Advisory committee meeting each year, the group reviews the District's Targeted Material List and Project List. The Advisory Committee met in August of 2018. The List was discussed and a suggestion was made to the Board to leave the list as is for the upcoming 2019 Grant call. During the 2018 MORA Conference, DNR provided more information about their Waste Study Analysis that was done in 2018. DNR stressed one of the main areas that were the largest in terms of being underserved was the Food/Organics Composting opportunities. The largest percentage of material that was found in the landfill was Food/Organic Waste. This area was also stressed in the MORA Strive for 75 Campaign, and in 2017, District N Placed Organic/Composting material in the high priority area. DNR stressed at the MORA conference the need for more grants in the Food/Organic Composting streams. District N for their 2019 Grants, approved a "Candy Cane" lifter for the In-Vessel Food Composting at the EarthWise Recycling Center located on the Reeds Spring Elementary School. This is the only In-Vessel Food composter at any Public or Private school in the state of Missouri. This much-needed improvement will enable EarthWise to process more efficiently and expand their composting opportunities. The District approved a grant for Electronic Recycling in the 5 counties to be held during the fall of 2018. Electronic waste is on the High Priority List. Planner Moseley oversaw this grant. This grant was so much needed in our counties. There is no full-time Electronic recycler within the District. Many of these areas have never had any electronic recycling available. This grant provided citizens of District N with much-needed access to Electronic Recycling, which is on the High Priority List. (more about this grant is provided below). Also, another grant that was completed in the summer/fall of 2018 was for an item that was added to the High Priority List and is named in the MORA's Strive for 75. The District approved a grant for Hansens's Tree Service for a Clearspan Building for Composting purposes. Organic waste is on the High Priority list for the District. This grant enabled Hansen's to increase their tonnage diversion for several materials. Hansen is currently the only organic waste, and construction and demolition waste recycler in Stone and Taney Counties. (more about this grant is provided below). No specific grant proposals are solicited. All proposals are welcomed. All grants are evaluated using the same criteria.

1 (b). What waste goals does the district have for the upcoming fiscal period and what actions does the district plan to take to achieve these goals. Please include the types of grant proposals that will be sought for the upcoming period to assist in meeting these goals.

The District goals will implement the need to reduce waste and recycle items with an emphasis being placed on the High Priority List. Every year at the Annual Advisory Committee meeting the district goals and priorities are discussed and presented to the Executive Board. During the August 2019 Advisory Committee meeting, the District's Targeted Material List and Project list was discussed. Tires were moved to the High Priority lists, and some other items were consolidated together. These ideas were suggested to the Executive Board and discussed. The Board voted to accept these changes to the list for the 2020 Grant Call. For the fiscal period of 2020, the total amount of grants received were above the amount of funds available. The Board will hear presentations from Grant applicants at the October Board meeting, and the Board will vote on the grants at the November meeting. No specific grant proposals are solicited. All proposals are welcomed. All grants are evaluated using the same criteria.

2 (a). What recycling goals did the district have for the fiscal year period and what actions did the district take to achieve these goals?

	GOAL:	ACTION:
1	A major goal that continues for District N is to expand the Education programs throughout the District. Education is the major tool to use to grow our programs within our District in both quantity and quality. Education is the key to increase recycling.	Education is the key to increasing recycling rates to reinforce the need to make the right choices every day, which is critical to the success of every recycling program. The importance of education is stressed at every District N Board meeting. A report is given each month about the educational programs. The District has 3 educational speakers who do educational programs throughout District N. For the 2019 grant call, Earthwise Recycling Center at Reeds Spring school requested a "Candy Cane" (Bin/Tote) lifter for their In-Vessel Food Composter. This lifter would actually lift the 200 lbs totes of food compost up into the air and dump the food into the hopper of the composter. In the past, this is a completely manual process with 5 to 10 totes each night manually pulled up the ramp, then manually lifted and dumped into the hopper. Not only would this lifter help with efficiency, but it would also provide for much-needed worker safety. Earthwise is the only public school-based recycling center with an In-Vessel Food Composter in the state of Missouri. Earthwise is a completely volunteer organization. Each high school student at Reeds Spring is required to volunteer on Saturdays to work in the Recycling center, and this is a graduation requirement. EarthWise is only open for public recycling on Saturdays. They currently recycle: paper, plastics, tin, metal, glass, cardboard, aluminum, and provide a drop off location for electronics. This is an excellent example of education recycling, and I feel that is the best example within District N. EarthWise has several programs throughout the year where they educate the public on several different areas of recycling.

2 (b). What recycling goals does the district have for the upcoming fiscal year period and what actions does the district plan to take to achieve these goals? Please include the types of grant proposals that will be sought for the upcoming period to assist in meeting these goals?

As previously stated in last year's report, on the District Targeted Project List, Educational activities are at the top of the list. District N stresses that education is the key to successful recycling. District N is constantly looking at new and different ways to educate the public on the importance of recycling. At every District N board meeting, a report/update is given on the District's Education Program (Grant). The District Education grant is used for education programs that are available to all clubs, businesses, organizations, schools within the cities and counties of District N. The measurable outcomes of the Education grants are detailed in item #5 below. Currently, the district has a District Education program grant with 18 educational programs available, this helps to provide educational opportunities to increase recycling awareness. All proposals are welcomed. No specific grant proposals are solicited. All grants are evaluated using the same criteria.

3 (a). What resource recovery goals did the district have for the fiscal year period and what actions did the district take to achieve thee goals?

Resource recovery is defined by extracting specific material for new/next use, for example, recycling, composting, and energy generation. The goal of District N is to educate and identify opportunities within the District for resource recovery to build the infrastructure within District N. The District currently has 10 recycling trailers that are all currently in use throughout different areas with varying cities, schools, other organizations. The District does not have any more available but has received requests for more trailers. Currently, the City of Branson has 4 of District N's Recycling trailers in use. For the 2019 grant call, the City of Branson applied for an additional Recycling trailer to be owned and used by them. This application was approved by the Board and DNR. This additional trailer is greatly helping the City of Branson in their several drop off locations for recycling. Branson currently has two 24 hour drop off locations that are available to their citizens. This trailer that Branson received is a much larger trailer with a larger recycling capacity than the District trailers. By the use of the recycling trailers within District N, it has provided a means for smaller areas that do not possess adequate funding to fund a full recycling center, recycling opportunities to their residents. These trailers have provided a much-needed service for several of the underserved areas within District N. Another 2018 grant, that was completed during this timeframe was for Hansen's Tree Service for a Clearspan Building as I have mentioned above. This building is enabling Hansen's to expand their composting business in Stone county. Currently, Hansens' Tree Service is the only composting facility in Stone and Taney counties. Hansen's composts Yard Waste, C&D Waste, Animal Waste and Food Waste Composting. With the amount of tourists and the constant building of vacation homes in this area, there is a high demand for C&D Waste/Composting. We are hoping for the 2020 MORA conference in Branson, that Hansens' will be one of the tour locations for the conference.

3 (b). What resource recovery goals does the district have for the upcoming fiscal year period and what actions does the district plan to take to achieve thee goals? Please include the types of grant proposals that will be sought for the upcoming period to assist in meeting these goals.

The goal of District N is to educate and identify opportunities within the District for resource recovery to build the infrastructure within

District N. Since District N is a minimum funded District, we are still trying to build a recycling infrastructure in several of our areas. Planner Moseley is constantly working with cities, counties, and various other organizations to help develop, start, or implement various recycling programs within District N. As stated above, the District currently has 10 recycling trailers that are all currently in use. The District does not have any more available but has received requests for more trailers. No specific grant proposals are solicited. All proposals are welcomed, and all grants are evaluated using the same criteria.

4. Summarize the types of projects and results during the fiscal year, including previous fiscal years as part of the 5 year reporting. (add additional rows if needed)

	PROJECT #:	NAME OF PROJECT RESULTING IN TONNAGE DIVERSION FROM LANDFILLS:	COST OF PROJECT:	NUMBER OF TONS DIVERTED:	AVERAGE COST PER TON DIVERTED:
1	N2019-003 - EarthWise Recycling Center	Project in process- Candy Lifter has not been purchased	14,550.00		
2	N2016-006 - EarthWise Recycling Center	EarthWise Recycling Center @ Reeds Spring School - 2 Balers	16,280.70		
3	Total for EarthWise Recycling Center	Total Costs of Projects for EarthWise & Total Diversion for projects for this year only	30,830.70	137.7300	223.84
4	N2019-004 City of Branson	Project in process - Recycling Trailer has not been purchased	17,725.00		
5	N2017-006 City of Branson	City of Branson - Recycling Bin Lifter	7,558.87		
6	N2014-003 City of Branson	City of Branson - Forklift	16,500.00		
7	Total for City of Branson Recycling Center Grants	Total Cost of Projects - Diversion only for this Year	41,783.87	671.0000	62.27
8	N2019-005 All Points Recycling LLC	All Points Recycling, LLC - Semi-Trailers	19,950.00		
9	N2018-007 All Points Recycling LLC	All Points Recycling, LLC - BobCat	19,500.00		
10	N2017-007 All Points Recycling LLC	All Points Recycling, LLC - Baler	8,117.50		
11	N2016-007 All Points Recycling LLC	All Points Recycling, LLC - Semi-Tractor	18,052.26		
12	N2014-002 All Points Recycling LLC	All Points Recycling, LLC - Truck Scales	19,950.00		

13	Total for All Points Recycling LLC	Total Cost of Projects for All Points - Diversion only for this Year	85,569.76	1,236.4800	69.20
14	N2018-002 - District N Electronic Recycling 5 Events	District N Electronic Recycling - 5 events in 5 counties	17,100.07	24.0000	712.50
15	N2018-006 - Hansen's Tree Service	Hansen's - Clearspan Building	7,831.33		
16	N2016-003 - Hansen's Tree Service	Hansen's - Clearspan Building	5,468.73		
17	N2015-005 - Hansen's Tree Service	Hansen's - Crossbelt Magnet	5,478.36		
18	Total for Hansen's Tree Service	Total Cost of Projects - Diversion only for this Year	18,778.42	23,496.0000	0.80
19	N2018-008 - Tantone Industries, Inc.	Tantone Industries - Cargo Van	25,843.00		
20	N2015-002 - Tantone Industries, Inc.	Tantone Industries - Conveyor & Recycling Trailers	30,700.87		
21	Total for Tantone Industries	Total Costs of Projects for Tantone & Total Diversion for projects for this year	56,543.87	794.4500	71.17
22	N2016-004 - Purdy School	Purdy School District - Loading Ramp for Recycling Center	6,374.00	39.8300	160.03
23	N2014-006 - Taney County	Taney County Tire Machine & Carport (carport moved to Branson)	5,629.00	160.0000	35.18
24	N2014-009 - City of Aurora	City of Aurora - Trailer Mounted Leaf Loader and Leaf Box - diversion for 1 year	5,000.00	5.0000	1,000.00
25	N2013-006 - Southwest R-V School District	Southwest R-V Recycle Project - diversion for 1 year	14,642.14	6.3000	2,324.15

5. Summarize projects not resulting in Tonnage Diversion

	LIST PROJECTS BY NUMBER AND NAME NOT RESULTING IN TONNAGE DIVERSION FROM LANDFILLS.	COST OF PROJECT:	MEASURABLE OUTCOMES ACHIEVED FOR THESE PROJECTS:
1	N2019-001 - District Operations - currently in process	47,500.00	<p>Funds from the District Operations grant are used to pay for the District Planner's salary, worker's compensation insurance, bonding insurance, property and MOPERM insurance. Other expenses that are covered by this grant include: office supplies, office expenses, internet expenses, computer backup expenses, MORA conference fees, MORA membership fees for planner and chairman, mileage required for District travel for district business, postage, annual post office box rental, legal notices, and educational items on recycling. For the 2019 grant call the district awarded 5 grants. During the past year, the District has had 12 board meetings. We had our Annual Council meeting in December with a large attendance with great discussion. The Advisory committee met in August with a great turnout. Planner Moseley visited every subgrantee's locations within District N during the fiscal year. Planner Moseley wrote a grant to do 5 Electronic Recycling events, one in each of the District's 5 counties. All 5 Electronic Recycling Events were held in September and October of 2018. After the 5 events funds were still available, so Planner Moseley wrote an addendum to this grant (#N2018-002) which is detailed above for one large centrally located event that was held in Monett, MO on June 29, 2019.</p>
2	N2019-002 - Stone County - MORA Conference	949.00	<p>This grant was to provide funds for Denise Dickens who serves on District N Board who represents Stone County to attend the 2019 MORA conference. Denise provided a report to the District board after she attended the conference. Denise wanted to express her thankfulness to DNR to provide the funds for her to attend this conference.</p>

3	N2017-002 - District N Education Program - currently in process	2,100.00	This grant is still in process, funds are still available for educational programs. Eleven educational programs have been completed as June 30, 2019. The grant was delayed due to funds remaining for the 2016 Education grant. Funds were used first from the 2016 grant, before the 2017 grant was started. An addendum and extension was done on this grant to enable that the 4 remaining programs could be completed.
---	---	----------	---

6. Identify separate statistics for items banned from landfills:

	LIST PROJECTS BY NUMBER AND NAME RESULTING IN TONNAGE DIVERSION FROM LANDFILLS.	LIST COST OF PROJECT RESULTING IN TONNAGE DIVERSION:	NUMBER OF TONS DIVERTED FROM PROJECT:	AVERAGE COST PER TON DIVERTED:	MEASURABLE OUTCOMES ACHIEVED FOR THESE PROJECTS:
1	N2018-006 - Hansen's Tree Service - Clearspan Building	7,831.33			Please see comments below for the total costs and diversion.
2	N2016-003 - Hansen's Tree Service - Clearspan Building	5,468.73			Please see comments below for the total costs and diversion below.
3	N2015-009 - Hansen's Tree Service - Crossbelt Magnet	5,478.36			Please see comments below for the total costs and diversion below.
4	Combined diversion for Hanson for all of the above grants - for 1 year, which is this past year	18,778.42	23,496.0000	0.80	All of the above projects for Hansen's were completely on-time - actually usually completed early. For every project they have far exceeded their estimated tonnage goals. They have diverted over 38,775 tons of material combined for these projects!!!!
5	N2014-006 - Taney County - Tire Machine (Carpport transferred to Branson)	3,549.00	160.0000	35.18	Project was complete and everything was up and running by the end of August 2014. To date this project has diverted over 838 tons of material from the landfill.
6	N2014-009 - City of Aurora - Trailer Mounted Leaf Loader and Leaf Box	5,000.00	5.0000	1,000.00	This project was completed and put into place in October 2014. To date this project has diverted over 325 tons of leaves.

7. Identify separate statistics for items NOT banned from landfills:

	LIST PROJECTS BY NUMBER AND NAME RESULTING IN TONNAGE DIVERSION FROM LANDFILLS.	LIST COST OF PROJECT RESULTING IN TONNAGE DIVERSION:	NUMBER OF TONS DIVERTED FROM PROJECT:	AVERAGE COST PER TON DIVERTED:
1	See item #4 with the exception of items listed in #5 & #6			

8. Describe your district's grant proposal evaluation process.

Grant Review Committee Policies 1. The Grant Review Committee shall be made up of members of the District N Executive Board. 2. District Grant Applications will be reviewed and ranked by three (3) member Sub-Committee appointed by the Chairman of the Executive Board. The ranking will be based on objective, point-based criteria developed by the District staff and the Executive Board. No Executive Board Member shall participate in ranking of an application submitted by their jurisdiction, agency or organization. 3. The Executive Board may invite the applicants to make a brief presentation before the Executive Board. Applicants should be prepared to justify their project and answer questions. 4. Upon completion of the Sub-committee ranking, presentation and recommendation to the Executive Board, the Executive Board will determine the degree to which funding to any project will adversely affect existing entities in the market segment and assign the final ranking and/or funding of the received applications. 5. The final decision on the grant awards shall be made by the vote of the Executive Board. 6. District grant funds shall not be awarded for projects in a City or County which has not adopted the Southwest Missouri Solid Waste Management District Solid Waste Plan. 7. Projects generally will not be funded on an on-going basis, but will be funded to encourage the creation or start-up of programs. Partial funding may be provided in future years where funds are available and need is documented. The District Plan may provide recommendations for on-going projects which are selected for special funding consideration by the district for a given year. 8. The past grant administration performance of an applicant shall be considered for on-going projects and for applications for different projects from the same applicant. 9. Grant projects are for one year. Grantees may request extensions up to one year to complete the project. After the two year time period, a maximum of one 6 month extension may be allowed beyond the two year completion period when approved by the District's Executive Board. All project and budget period extensions must be documented in executive board meeting minutes with a copy of the extension and executive board minutes provided to SWMP. Any extension of the project or budget periods beyond two years and six months must have prior approval of the District's Executive Board and the SWMP 10. District Staff will prepare and submit the grant applications to MDNR for approval and release of funds. I have attached the Grants Project Evaluation Form.
