**Public Hearing on the Missouri Red Tape Reduction Regulation Review**

**Background:** Under Governor Greitens' leadership, all state agencies are working to reduce regulations and other government processes that unnecessarily burden individuals and businesses while doing little to protect or improve public health, safety, and our natural resources. The Missouri Department of Natural Resources is committed to limiting regulation to what is necessary to protect Missouri's environment, implementing statutory mandates, and maintaining state control of programs. The next item on the agenda is to conduct a public hearing on the Missouri Red Tape Reduction Regulation Review for the rules under the purview of the Missouri Clean Water Commission.
