

Missouri Clean Water Commission Meeting  
Echo Bluff State Park  
Eminence, Missouri

October 5, 2016

**Callaway Farrowing, LLC Appeal No. 14-1978 CWC**

**Issue:** On December 19, 2014, Friends of Responsible Agriculture appealed the permit issued to Callaway Farrowing, LLC. The Administrative Hearing Commission conducted a hearing on the matter February 10, 2015, and made a recommendation to the Clean Water Commission on April 17, 2015. That question is now before the Commission. However, there is also a request to reopen the hearing record offered by Callaway Farrowing, LLC, which motion must be decided before action may proceed on the appeal itself. Should the Commission accept the motion, staff will set a separate date for the hearing to accept additional testimony into the record, and no further action would be taken on this matter October 5, 2016. If the Commission declines to accept the motion, the Commission may proceed to reach a decision on the appeal.

**Background:** Materials describing the permit and the appeal, as well as the motion before the Commission and the intervening Cole County Circuit Court action, have been previously provided to the Commission and are self-explanatory.

**Recommended Action:** The Department recommends the Commission reach a decision on the motion and, if appropriate, the appeal.

**List of Documents Previously Provided:**
