

Community Public Water System

Dear Operator:

Attached you will find results from the recent **lead and copper testing** at your public water system. Please note that you are required to notify residents of the homes tested of their results, including an information sheet on **Lead In Drinking Water**. **You are also required** to notify DNR that you did so. Make sure you do the following:

- Make copies of the **Customer Notification** sheet, and fill out for each customer.
- Attach a copy of **LEAD IN DRINKING WATER** and deliver to the customer residing where samples were taken.
- If the customer is a renter, the landlord must also be notified.
- Fill out the **Lead and Copper Results Delivery Certification** and sign.
- Return the **Lead and Copper Results Delivery Certification** along with a **SINGLE COPY** of one of the Customer Notification sheets you sent out to your customers using the enclosed label within 30 days of receiving results.
- Failure to complete these steps is a violation of the Safe Drinking Water Act.
