Subject: Better Use of Water

Dear Humans,

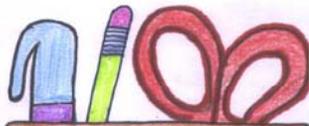

Thank you for keeping me clean and helping conserve my resources. You have done a great job by choosing tap water over bottled water, which:

- reduces the amount of plastic bottles in landfills
- costs less than bottled water
- no plastic bottles = no carcinogens
- has more uses than bottled water does, such as bathing, washing dishes, laundry, your hands, pets, cars, watering plants, flushing toilets, ...

Keep up the good work!

Your Planet Earth 😊
